EXECUTIVE SUMMARY

The Nonprofit Organisation Act 71 of 1997 provides a registration facility for an organisation to register as a nonprofit organisation as part of the legal framework to regulate the nonprofit sector.

The current South African legal framework on NPOs is rooted in the fundamental rights as stated in the South African Constitution (“the constitution”). The right to freedom of religion, belief and opinion; as stated in section 15 of the Constitution and right to freedom of association as stated in section 18 of the constitution are essential for the civil society formations. The existence of nonprofit organisations therefore personifies these rights by enabling individuals to participate in community groups.

An NPO is defined, in terms of section 1 of the NPO Act, as a trust, company or other association of persons established for a public purpose and of which its income and property are not distributable to its members or office bearers except as reasonable compensation for services rendered. Nongovernmental organisations (NGOs) and community based organisations (CBOs) are collectively known as nonprofit organisations (NPOs).

To apply for registration as a NPO, organisations fill-in a prescribed application form and submit it to the Department of Social Development with the organisation’s founding document i.e. a constitution for a volunteer association; memorandum and articles of association with the company’s registration letter for a not-for-profit company; and a deeds of trust with the trustees authorisation letter for a trust. The founding document of the organisation must meet the requirements of section 12 of the NPO Act.

Over the years, there has been a significant increased demand on the NPO registration. By the end of March 2015, the total number of registered organisations was 136 453 since the inception of the NPO Act. This is a significant growth rate of about 16.5% (from 117 093) from the previous financial year.

Gauteng province has the most number of registered NPO at 32.2% followed by KwaZulu Natal with 19.2%, Limpopo 10.4% and Western Cape with 10.2 % respectively. The Northern Cape has the less number of NPOs with 2.1%.

Registered NPOs are grouped, accordingly to the International Classification of Nonprofit Organisations (ICNPO), as per **Appendix 1**. Social Services is the leading sector with 39.9%, followed by development and housing sector (20.9 %). The Religion sector follows with 12.2%, Health sector at 8.8% and Education and Research sector with 7% and the International organisations (0.1%) are the less number of registered NPOs.

By the end of March 2015, the Department received 29 430 applications from organisations seeking registration status. On average, the Department received about 98 applications per day. Most of the applications come from Gauteng (35%),

KwaZulu Natal (16%), Eastern Cape (11%) and Western Cape (11.6%). The Northern Cape submitted the less number of applications (2%).

Of total number of applications received for this financial year, **21 092** (71.6%) were eventually registered and **8 338 (28%)** did not meet the requirements of sections 12-13 of the NPO Act to be registered.

It is evident that as much as registration is voluntary, a large number of organisations choose to register as a nonprofit organisation and be accountable to a public office that holds information of registered NPOs in custodian to members of the public to access.

1. INTRODUCTION

South African Civil Society Organisations (CSOs) play a very significant role in nourishing our young democracy and addressing the needs of vulnerable communities and groups. These organisations are characterized by a wide variety of organisations of different sizes and shapes across the political, economic and social spectrum of society.

Recognizing the invaluable role of the nonprofit sector (CSOs) in our society, the South African government, like any other modern democratic government, has created an enabling legal environment to support and encourage the formation of organisations. This legal framework is rooted in the fundamental human rights culture of the Republic of South African Constitution.

The right to freedom of religion, belief and opinion; of expression and; of association as contained in the Bills of Rights is fundamental for the civil society formations. This means that everyone has the right to associate with other people and form organisations and express themselves in whatever way they choose provided that this is done in compliance with existing laws. Recent international and national studies recognised that South African legislative framework on NPOs is the most progressive international and thus match the international good standards and practices for an enabling environment on civil society.

The Nonprofit Organisations Act 71 of 1997 (NPO Act) is the primary legislation within the legal framework for NPOs. The main purpose of the NPO Act is to create an enabling environment in which NPOs can flourish and to establish an administrative and regulatory framework within which organisations can conduct their affairs. Specifically, the Act aimed at encouraging NPOs to maintain adequate standards of governance, transparency and accountability and to create an environment within which the public may have access to information on registered organisations¹.

This report is issued in terms of section 25 of the NPO Act that aims to inform the public and increase public knowledge on information about registered NPOs. The report entails a synoptic analysis of organisations that have chosen to register in terms of the NPO Act. It deals the size and scope of registered NPOs by sector and province.

2. DEFINING A NONPROFIT ORGANISATION

Nonprofit Organisations is an associated term for civil society organisations that range from faith and community based organisations, charities (welfare), traditional organisations like social and sports clubs, and a host of other development and social forms of organisations working tirelessly on the social fabric of society. These organisations are commonly referred to as non-governmental organisations (NGOs), community based organisations (CBOs) and faith based organisations (FBOs).

Section 1 (x) of the Nonprofit Organisations Act 71 of 1997 defines an NPO as a trust, company or other association of persons that is has been established for a public

¹ The objectives of the NPO Act are enlisted in section 2 of the NPO Act.

purpose and the income and property of which are not to be distributed to its members or office bearers except as reasonable compensation for service rendered.

This definition makes provision for organisations that have been registered in terms of the Trust Property Controls Act 57 of 1988 as amended (Nonprofit Trusts), the Companies Act 71 of 2008 (Nonprofit companies) or in terms of common law (voluntary associations).

Voluntary associations are deemed to be CBOs as they are traditionally informal types of organisations that are rooted in communities they serve. Nonprofit Trusts and nonprofit companies are usually NGOs that are much more sophisticated and are mostly urban based organisations that have a reach beyond their immediate geographical office base.

The NPO Act therefore provides a much needed registration facility for all these type of organisations thus creating a central depository of all registered nonprofit organisations to make it easier for the public to access information on registered NPOs.

3. THE NPO ACT AND ITS REGISTRATION FACILITY

The Department of Social Development is responsible for the implementation of the NPO Act. A Directorate for Nonprofit Organisations has been established, in terms of section 4, to administer the provisions of the Act. The core business of this Directorate is essential to provide an efficient registration facility for organisations and to ensure accessibility to records of registered organisations. The registration standards and procedures including the obligations of registered NPOs are articulated within the NPO Act.

This section gives an overview on the legislative requirements for registration, compliance and the de-registration/cancelling of organisation from the NPO register. It also focuses on the appeals against refusal to register and cancellation of registration.

3.1 NPO Registration Requirements

Every organisation that seeks to register as an NPO in terms of sections 12 and 13 of the NPO Act submit a constitution (founding document) and a completed prescribed application form that contains the organisation's contact and the office bearers' details.

Section 13 (2) obligates the NPO Directorate to complete the assessment of each application within two months. Applications that meet the requirements are registered in terms of section 15 of the NPO Act and those that do not meet the requirements are returned to the applicants with advice on how to meet the requirements.

3.2 NPO Compliance Requirements

Once the organisation is registered, it is obligated, in terms of sections 18 and 19, to submit within nine months after the end of its financial year, annual reports (a narrative report, annual financial statement and an accounting officer's report) including any changes to the organisation's constitution, physical address and office bearers.

A registered NPO is also obligated to comply with the material provision of its constitution, failure to do so is also deemed to be non-compliance.

3.3 Cancelled Registration/Deregistration

In terms of section 21, registered NPOs that do not comply with the reporting requirements of the NPO Act or the provisions of its constitution are cancelled. However, section 20 requires that a non-compliance notice of 30 days should first be sent to the organisation to give it an opportunity to ratify its status before cancellation can be effected. Failure to comply with this notice, an organisation registration status is cancelled in terms of section 21 for the NPO Act.

A registered NPO may also voluntarily deregister in terms of section 23(1) or dissolve in terms of section 23(2) of the Act. In this case, the NPO must provide a 30 days' notice of the intention to deregister or dissolve.

Once an organisation has been cancelled, deregistered or dissolved, as the case may be, it is a criminal offence, in terms of section 29, for any such organisation to represent itself as being validly registered in terms of the NPO Act. The offense is also extended to a person(s) using the registration number of another organisation's and making any false representation in any report submitted to in terms of this Act. A person(s) convicted for these offences is liable to a fine or to imprisonment or to both fine and imprisonment, in terms of section 30 of the NPO Act.

3.4 Appeals

A nonprofit organisation may appeal against refusal to register, in terms of section 14 and cancellation of registration, in terms of Section 22. The NPO Act requires the Minister to appoint Panel of Arbitrators and prescribe the terms and conditions of appointment of members of the panel of arbitrators.

The appointed panelists convene a tribunal only when to consider appeal cases and each case should be dealt within three months after submission. The decision of the Arbitration Tribunal is binding on both parties i.e. the NPO Directorate and the appellant.

4. STATUS OF THE NPO REGISTER FOR 2014/15 FINANCIAL YEAR

This section of the report, focus on an analysis of organisations that were registered during the financial year 2014/15.

Of the annual total applications received, 16 421(55.7%) ultimate met the requirements and were registered. In other words, 68 organisations on average are registered on a daily basis. This makes the number of registered NPOs for 2014/15 FY to a total of 21 092, including 4 671 NPOs that were received in the last financial year.

The chart below depicts the number of applications processed and registered per province.
