CERTIFICATE OF INDEPENDENT BID DETERMINATION

1 This Standard Bidding Document (SBD) must form part of all bids' invited.

2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).\(^2\) Collusive bidding is a \textit{per se} prohibition meaning that it cannot be justified under any grounds.

3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
   a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
   b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

\(^1\) Includes price quotations, advertised competitive bids, limited bids and proposals.

\(^2\) Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

TERMS OF REFERENCE

FOR THE INSTALLATION, CONFIGURATION, MIGRATION, MAINTENANCE AND SUPPORT OF THE SERVER AND STORAGE INFRASTRUCTURE AT THE DSD GROENKLOOF OFFICE
1. PURPOSE

The purpose of this document is to request for a proposal to the supply, installation, configuration, migration, maintenance and support of the network infrastructure at the DSD Groenkloof office.

2. BACKGROUND

The Department of Social Development has an established Information Technology environment located at the Groenkloof Appeals office.

When the office was established in 2009, it was foreseen that the office would have some minor data centre needs provided. Those were the ability to receive mails, log on to the network and some other minor items.

These services were provisioned for with the establishment of a network and server environment suitable to those needs.

As the offices have matured over time, the needs have now far surpassed the ability of the provisioned equipment to suitably enable the business.

The establishment of the Appeals Business Information SYSTEM (ABIS) platform has also expounded the Infrastructure requirements and this was facilitated by the re-tasking of Infrastructure equipment originally procured for the End-point project. This assisted for the project to proceed, but the equipment is not entirely suitable, or right-sized for the needs of the ABIS system.

Additionally, the already provisioned environment has reached the end of its support contract and must be refreshed with newer and more capable Infrastructure.
3. BUSINESS REQUIREMENTS

The establishment of the Appeals Business information System (ABIS) requires that the provision of a capable, secure and robust environment is provisioned. The refresh of the Groenkloof datacentre has become a real priority to be able to provide the business and technical needs of the new systems.

The product solution proposed need to address the following business requirements:

- An IT infrastructure solution to support the Groenkloof ABIS project. The IT infrastructure solution must contain, at least, all the items listed hereunder.
