**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

**REPUBLIC OF SOUTH AFRICA**

## **TERMS OF REFERENCE**

### **REQUEST FOR PROPOSAL (RFP)**

**Appointment of a service provider to upgrade the evaluation of substance use disorder treatment services in South Africa to ensure capacity for greater responsiveness (from the South African Government) to emerging substance use trends, rapid feedback to providers.**

## **1. PURPOSE**

Appointment of a service provider to upgrade the monitoring and evaluation of substance abuse treatment services in South Africa to ensure capacity for greater responsiveness to emerging substance use trends, rapid feedback to providers, and integration with other systems.

## **2. PROJECT NAME**

Substance Use Disorders (Acronym of the project SUD)

## **3. BACKGROUND**

Untreated substance misuse is a major driver of crime and violence in South Africa. Providing people who use substances with access to effective treatment may be an important crime prevention and family's preservation strategy. Addressing the burden associated with substance use disorders (SUDs) is both a global and national priority, as reflected in the United Nations' Sustainable Development Goals for 2030, where SUD prevention and treatment are included in the targets. Several efforts have been undertaken to improve the quality of SUD treatment in South Africa, such as training on evidence-based treatment through the Colombo Plan Programme (Universal Treatment Curriculum). However, there is still minimum monitoring of the quality and outcomes of SUD services, as a result the impact of these services remains uncertain. Without good data on the quality of SUD treatment, service improvement efforts in South Africa may be poorly targeted and have limited effect.

These data are also needed to advocate for greater investment in SUD prevention, treatment and continuing care services. The Department of Social Development being lead Department in the field of substance abuse is also expected to submit annually epidemiology reports covering trends in substance use and abuse, impact and services to the African Union Commission and the United Nations Office on Drugs and Crime. As

Terms of Reference- for the development of a substance abuse electronic system to collect data.

such the development of an electronic system to collect data on substance use and measure the performance and quality of South Africa's substance use services is essential.

DSD intends to develop SAS to enable the information exchange with other stakeholders (public sector and private sector). DSD has an integrated case management solution called Social Development Integrated Case Management System (SDICMS) which is built on Microsoft ASP.NET and database based on SQL 2008 R2. SAS is expected to be part of SDICMS.
