

Question:

I am writing in connection with ToR for 'The appointment of a service provider to conduct a rapid assessment of effectiveness and impact of the social sector response to food relief mechanism during COVID-19'

The ToRs do not give an indication of the number of beneficiaries from the program. Please provide details as this will be important in helping us to develop the sampling strategy.

Response:

The sample must be drawn from all provinces, and also targeting hotspots areas. The table below estimates number of beneficiaries reached by May 2020, so far we are not sure how many have been reached. For sampling they will have to come with a strategy how are they going to cover all the provinces.
