

Questions:

1. Will the selected service provider get access to the database of recipients of food parcels? Will the Department identify the respondents or should the service provider sample based on the database? Are there specific expectations for sampling?
2. Will the selected service provider get access to the database and contact details of NGO's and implementing agents with whom they collaborated/partnered?
3. Will the selected service provider get access to a name list with contact details of departmental officials relevant to the project?

Responses:

In response to the questions below:

1. The service provider will get a data base for the recipients but the department will not identify them for the service provider. No specific expectations for the sampling.
2. Yes the service provider will get access to the database and contacts of NGOs and Implementing agents.
3. Yes the service provider will get the name list and contacts of the departmental officials.
