Department:
Social Development
REPUBLIC OF SOUTH AFRICA

**DEPARTMENT OF
SOCIAL DEVELOPMENT
ANNUAL PERFORMANCE PLAN
2023/2024**

MINISTER STATEMENT

It is my pleasure to present the Annual Performance Plan (APP) of the Department of Social Development for the 2023/2024 financial year. This APP marks the twelve (12) months remaining to the end of the Sixth Administration of our democratic government.

Practically, this means in the remaining time the Department will invest all that is at its disposal — expertise, resources, partnerships, etc., towards the realisation of the outstanding aspects of the electoral mandate of the African National Congress (ANC), Cabinet's Seven (7) Priorities, the Medium-Term Strategic Framework (MTSF), and the National Development Plan (NDP) in the lives of all South Africans, particularly the vulnerable. To this end, the Department of Social Development will be implementing the following priorities that are embedded in the 2023/2024 APP:

- Implement the Gender-based Violence and Femicide National Strategic Plan,
- Improve the optimisation of social welfare services, Optimise the social security legislative framework and develop appropriate norms and standards for service delivery,
- Strengthen the non-profit organisations' legislative framework and thereby contribute to addressing some dimensions of increased monitoring activities that are being conducted by the Financial Action Task Force,
- Promote vibrant and sustainable communities, and
- Improved livelihood strategies and economic participation.

The Department ought to protect and enhance the dignity of its beneficiaries in rendering its services, henceforth the outcomes and impact of its interventions must register visible, meaningful, relevant and people-responsive progress that would be possible in consolidating the social wage through coordinating and delivering reliable and quality basic services.

national lives and social ones. In other words, the Social Development portfolio which consists of the Department, the National Development Agency (NDA) and the South African Social Security Agency (SASSA); is doubtlessly expected to contribute significantly towards carrying out the Economic Reconstruction and Recovery Plan. The fluidity between the economic and social imperatives will result in the economic productivity of social investments. We are excited by the multiple prospects that lie in explorations in this area. To this end, the Department is ready to carry out initiatives that markedly reframe social development within the Economic Reconstruction and Recovery Plan.

Since the advent of COVID-19, the Department and its entities, SASSA and the NDA, were nudged into adopting people-responsive programme innovations. Consequently, noting the serial nature and recurrence of disruptive shocks in our society; e.g. pandemics, climate change, social unrest, etc.; the Social Development portfolio should, with greater intentionality, reconfigure itself to be a learning and responsive organisation. Doing so will enhance the portfolio's collective visibility, relevance and responsiveness to the people's lived experiences and felt needs during these extraordinary occurrences. Consistent with this systemic intentionality, therefore, the portfolio needs to increase and target its investments in response to these shocks in the quest to protect the dignity and lives of ordinary people.

As all of the government and state machinery, it is incumbent upon all of the Social Development portfolio to continue casting the implementation of this APP for the 2023/2024 financial year through the Cabinet-adopted District Development Model (DDM). The implementation of the portfolio's programmes through the country's fifty-two (52) districts and metropolitan municipalities is the success measurement that is linked to this APP. Aligned with the national priority of developing transversal social compacts, the implementation of the APP through the DDM will become the practical embodiment of active citizenship in our diverse communities. Accordingly, active citizenship is the lifeblood of our democracy.

Through structured and targeted partnerships, the Department of Social Development will drive economic participation and sustainable livelihoods in communities. In institutionalising improved governance and accountability, from this point onwards, the Department will self-evidently attend to human-level outcomes of our people's felt needs.

Minister Lindiwe D Zulu, MP
Minister of Social Development

Economic indicators are increasingly demystifying the distinction between the economic dimensions of our

DEPUTY MINISTER STATEMENT

This Annual Performance Plan (APP) is part of the strategic alignment with the APPs of provinces, the South African Social Security Agency (SASSA), and the National Development Agency (NDA) to progressively achieve the five-year impact of an 'improved quality of life for the poor and vulnerable'.

The Department of Social Development continues to lead in the coordination of social protection imperatives outlined in the NDP and implemented through the Medium-Term Strategic Framework (MTSF) through Priority 4, Consolidating the Social Wage through Reliable and Quality Basic Services.

The APP 2023/2024 is refocusing our work to impact the outcomes in line with the need to ensure individuals, families and communities have a safety net, especially during periods of unforeseen disasters. The psycho-social support programmes are meant to build competencies and capabilities for these groups to cope with life's pressures. We have witnessed how the most vulnerable groups in our society were hard hit by poverty during the different stages of lockdowns in our country.

To address the plight and immediate needs of vulnerable children within the scope of all children in need of care and protection in terms of Section 150 (1) of the Children's Act (Act No.38 of 2005) and to implement protection of orphaned and vulnerable children, the Department of Social Development launched Risiha. Risiha means "resilience" in Xitsonga and is a community-based child protection, prevention and early intervention programme, aimed at protecting orphans and vulnerable children, including those living in child and youth-headed households, children with chronic health conditions, as well as those living and working on the streets. Risiha is targeted at improving care and support services for children affected by HIV and AIDS, as many are left without parents or primary caregivers. The programme seeks to strengthen families and communities as the first line of response in the child protection system, with particular focus on children living in disadvantaged communities.

Social Development continues to address high-risk behaviour by youth, through the Compendium of Social and Behaviour Change (SBC) programmes in its response to COVID-19 which are integrated into our YOLO, Chommie, Men and Boys Championing Change, Traditional Leaders, Family and Ke Moja programmes as an integral part of social protection services.

The Community Development Programmes will intensify its efforts of community capacity enhancement through the rollout of the One Plan, and the District Development

Model under the auspices of Cooperative Governance and Traditional Affairs (COGTA) in all nine (9) provinces to sustain social cohesion. Building sustainable and vibrant livelihoods is the largest contribution towards achieving the mandate of the Department and this work is done in all provinces with the support of NPOs as our implementing partners.

COVID-19 has compelled us to speed up the implementation of the NPO Funding Policy and Partnership Model thereby ensuring uniformity in the Sector. The planned outputs on the provision of education and awareness programmes to NPOs will lead to an empowered and strengthened Sector that is able to deliver quality services to vulnerable and poor communities, thus improving the quality of life of our people. NPOs continue to remain our core implementing partners in our service provision continuum.

The National Drug Master Plan (2019-2024) requires us to prioritize harm reduction interventions that target vulnerable groups, including children, youth, women, inmates and people who use and inject drugs. To improve access and standards to care, treatment, rehabilitation, aftercare and reintegration, the Universal Treatment Curriculum (Colombo Plan) was approved by the African Union Commission of Ministers responsible for Drug Control in 2012. During 2023/2024, UTC will be expanded to all treatment centres on a national level. Hepatitis and other bloodborne diseases treatment for people who inject drugs is another imperative that requires our urgent attention this coming year.

Realising the rights of children with disabilities through a series of legislation and programmes, the Department of Social Development drafted the Respite Care Programme, which is a set of services integrating roles and responsibilities of different sectors to protect and promote the human rights of children with disabilities and support for their families. The development of the guidelines is aimed at identifying services for the empowerment and support of children with disabilities and their families, enhancing the capacity of the departmental officials on the provision of services to children with disabilities and their families, whilst enhancing access to services at the community level.

The Department is still committed to fighting the pandemic of Gender Based Violence and Femicide (GBVF) in the country. The Victim Support Services (VSS) Bill will be expedited as part of the GBVF Strategic Implementation Plan, following publishing in the Government Gazette for public comments.

These targets demand that we strengthen our leadership and management capabilities, accelerate efforts in empowering women and people with disabilities in development efforts, and reinforce our information and data systems as well as our partnerships with civil society, the private sector and the donor community. Together we will eradicate poverty, inequality and unemployment. Together we will protect and nurture the most vulnerable of our society, and together we will build sustainable and peaceful communities.

Ms Hendrietta Bogopane-Zulu
Deputy Minister of Social Development

ACCOUNTING OFFICER STATEMENT

It is my pleasure to present the Annual Performance Plan (APP) of the Department of Social Development (DSD) for the 2023/2024 financial year. This plan is premised on set government priorities espoused in the Medium-Term Strategic Framework (2019-2024) and builds further on our Constitutional aspirations and commitments expressed in the National Development Plan (NDP), Vision 2030, insights from our stakeholders and partners and various strategic reviews by the government including the annual adjustment made through the National Annual Strategic Plan (NASP).

The Department is tabling this APP at a time when the country and the world at large, are focusing on the post-pandemic recovery plans and are confronted by the reality of climate change which has resulted in a number of disasters, and the need for an equitable Just Transition. Our communities are facing hardships emanating from extreme weather patterns and flooding resulting in unbearable disasters, we also have to grapple with the high cost of living especially with rising food prices and the increase in the price of fuel coupled with load shedding, the social impact of these is tremendous, especially for vulnerable households. These changes present both opportunities and challenges to all stakeholders including our communities, civil society organisations, and the private sector amongst others. We have seen positive contributions from civil society and the private sector towards the sustainability agenda and a greater realisation that the future of our society lies in the collective hands, hence, we believe in creating a social compact in working with all sectors of society towards achieving our mandate.

The changes in our environment and the rapid evolution on the technological front, are forcing us to think innovatively, to be more imaginative and agile in the execution of our mandate. The Social Development Portfolio is fully embracing this wave across programmes ranging from welfare services, community development

and social security, particularly through automation and digitization of our programmes and offerings. We have successfully adopted new technologies in the grant administration system and continue to explore further opportunities to improve our service offerings. Our abilities have certainly expanded and are now better placed to embrace more collaborative approaches to social development and working with all social partners. This improves efficiencies all around. In our endeavour to deliver our services through difficult situations as we navigate through this VUCA (Volatile, Uncertain, Complex, Ambiguous) world we find ourselves in, we must ensure that through our innovative approaches we leave no one behind and that our services reach the length and breadth of the Republic of South Africa. One of the key aspects we will embark upon this year is to deepen our knowledge and participation in the social and solidarity economy, primarily through Social Entrepreneurship and Impact Financing.

Our newly adopted mantra is to “build cohesive, resilient families and communities by investing in people to eradicate poverty and vulnerability and create sustainable livelihoods”. At every turn, we will make use of all opportunities at our disposal to collaborate with stakeholders and partners in making this a reality. This is a necessary ingredient to reduce poverty, vulnerability, and unemployment. Of course, we also embraced a “Transformation Wheel” which has created a path for us to move away from the current trajectory of laborious and archaic processes that have not served our people very well. Our new aspiration is to be innovative and disciplined in our management and leadership approach and thereby re-imagining the Social Development Sector for the future.

The extension of the special COVID-19 Social Relief of Distressed Grant of R350, has provided us with an opportunity to press further on social security reforms including the possibility of Basic Income Support for the missing middle, people in the age cohort of, 18-59 and are without an income. We are currently looking at different feasible approaches in this regard. This Grant has also emboldened us to explore additional use of digital technology tools as touchpoints with our beneficiaries and measures to close the digital divide and make sure that no one is left behind in our service delivery commitments.

As a Department, we are moving away from theory into action, adding substance to our performance plans, which must be measured in terms of impact and the difference we are making to those whom we serve. In this regard, we have adopted the “Results-Based Approach” to ensure that our interventions speak to the felt needs of society and make a long-lasting impact. We are committed to promoting evidence-based planning, research and an impact agenda that will enable us to quantify the investments that we make and promote social accountability.

This year presents us with an opportunity to build on our central theme of “Execution Diligence and Excellence”

ANNUAL PERFORMANCE PLAN 2023/2024

focusing specifically on building trusting teams, robust systems to support operations, intra and inter-branch cooperation, a fit-for-purpose staff complement, strong intergovernmental relations and quality leadership. I regard these as fundamental tenets in our journey to inculcate a culture within our organization that rests on solid values which place the people that we serve at the centre of operations.

I am confident that through these initiatives and investments we make as a Department into the lives of millions of South Africans, we will contribute significantly to improving the wellbeing of every citizen, unlocking and realizing their full potential to becoming self-sustainable, whilst promoting human rights that are embedded in various international treaties we have ratified.

I wish to thank the Honourable Minister Lindiwe Zulu, and Deputy Minister Hendrietta Bogopane-Zulu, for their continued guidance in the development and finalisation of this APP, the Executive and Senior Management Team for their aptitude in grasping the mandate and vision of

the Department, and the entire staff complement of the DSD Portfolio who worked tirelessly in the compilations, editing and production of this APP. Their hard work and continued commitment to creating a caring and self-reliant society is greatly appreciated.

I am confident that through this plan, we will improve the quality of life for all citizens, especially the most vulnerable, the marginalized, children, youth, the elderly, women, and persons with disabilities.

Mr Linton Mchunu
Acting Director-General of Social Development

OFFICIAL SIGN-OFF

It is hereby certified that this Annual Performance Plan:

- Was developed by the management of the Department of Social Development under the guidance of Minister Lindiwe Zulu and Deputy Minister Hendrietta Bogopane-Zulu.
- Takes into account all the relevant policies, legislation and other mandates for which the Department of Social Development is responsible.

• WHITE PAPER PROPOSALS	• How DSD contributes
<p>Proposal 1: Establish a social protection floor that Includes social welfare</p> <p>Proposal 2: Develop a national Social Development Act</p> <p>Proposal 3: Include a social development component in the provincial equitable share formula or increase the poverty component to fund welfare services</p> <p>Proposal 4: Increase DSD welfare budgets. incrementally</p> <p>Proposal 5: Strengthen national planning and standardise service offerings across provinces</p> <p>Proposal 6: Establish and enforce simple, effective and standardised data collection</p> <p>Proposal 7: Integrate youth development and women development into other programmes</p> <p>Proposal 8: Focus the responsibility of the Department of Social Development in respect of disability</p> <p>Proposal 9: Coordinate with other Departments and agree on roles and responsibilities</p> <p>Proposal 10: Policy on orphans living with relatives</p> <p>Proposal 11: Accelerate NPO funding reform process</p> <p>Proposal 12: Institutional Reforms</p> <p>Proposal 13: Human Resource Reforms</p> <p>Proposal 14: Education, Training and Skills Development</p> <p>Proposal 15: Community Development and Sustainable Livelihoods</p> <p>Proposal 16: Comprehensive Social Security</p>	<p>Proposal 1: DSD must lead and define the social protection floor</p> <p>Proposal 5: Norms and standards</p> <p>Proposal 6: NISPIS</p> <ul style="list-style-type: none"> • DSD contributes, DPME/NPC to lead through comprehensive social security • NPO Directorate as a government component • Co-ordination. Mobilisation, facilitation, capacity building, integration across departments • Partnership • Psycho-social support (development and implementation of interventions) • Development and placement of social workers <p>Proposal 7: Youth camps, WEF</p> <p>Proposal 8: WPRPD, disability programme</p> <p>Proposal 9: Integrated framework, district model approach</p> <p>Proposal 10: Develop policy including service delivery model and approach, foster care, adoptions, families programme</p> <p>Proposal 11: NPO Unit, NPO funding floor</p> <p>Proposal 16: Extend social security coverage to eradicate and prevent poverty, institutional reforms to improve access, coherence and responsiveness of the social security system</p>

2. UPDATES TO INSTITUTIONAL POLICIES AND STRATEGIES

DSD has a stable policy regime and several operational policies in place. With respect to strategic policies, the White Paper on Social Welfare that will be approved by Cabinet is a critical instrument that will enable the sector to effectively deliver on its mandate. The White Paper on Comprehensive Social Welfare and the White Paper on Comprehensive Social Security will be finalised in the next five (5) years. These White Papers will provide critical and strategic direction for the Department and the sector. The Department is implementing the DSD Sector Strategy, which seeks to re-invent the DSD.

3. UPDATES TO RELEVANT COURT RULINGS

Mpumalanga High Court matter: KH HBB v Minister of Social Development

In June 2021, the Department of Social Development received a Constitutional Court Application relating to the constitutionality of Section 294 of the Children's Act, i.e., the validity of a surrogacy agreement. The Applicant in this matter sought direct access to the Constitutional Court and an order declaring that Section 294 of the Children's Act is inconsistent with the Constitution to an extent that it does not make provision for a genetic link between siblings for a surrogacy agreement to be considered valid.

The Department opposed the application, based on, inter alia, that Section 294 is meant to provide for parents who would like to be genetically connected to their children, and mainly to protect the best interest of the child. If none of the commissioning parents' gametes is used in surrogacy, the process will be as good as adoption which is provided for in the Children's Act.

On 13 January 2022, the Constitutional Court unanimously decided in favour of the Department by not granting direct access as prayed for by the Applicant, the application was accordingly dismissed. Constitutional Court issued a Judgment on the constitutionality of Section 294 of the Children's Act.

Subsequent thereto, the Applicant proceeded to lodge the application at the Mbombela High Court on 21 February 2022 based on the same relief being that of seeking to declare the provisions of Section 294 of the Children's Act unconstitutional and unlawful. The Department successfully opposed the application.

The matter was heard on 30 August 2022 and on 20 February 2023 the Court issued a judgment wherein the application was dismissed on the basis inter alia, that the Court cannot interfere with the chosen measure on the ground that the legislature should have taken other consideration into account or that it should have taken other decision that is preferable (i.e. the right to have a genetically linked sibling) and that granting the Applicant the relief that they sought will violate the principle of separation of powers and interfere with the lawfully chosen measure by the Legislature.

Constitutional Court matter: Freedom of Religion of South Africa (FORSA) in re YG v State

This matter emanates from and in an appeal from a criminal conviction in the Magistrate's Court. A father was convicted of the assault of his 13-year-old son on the grounds that he exceeded the bounds of reasonable chastisement. The matter went on appeal and the judges decided that they could not decide the matter without considering the constitutionality of the defence of reasonable chastisement.

The court issued a Rule 16 A and invited amici curiae to make written submissions, which was done by Freedom of Religion of South Africa (FORSA), amongst others. But then at the hearing on 26 June 2017 the matter was further postponed, and the court gave the directives inviting the Ministers of Social Development, and Justice and Correctional Services to make submissions if they wished to do so. The Department submitted same on the filing date for submissions, which was 07 August 2017 pursuant thereto.

The issue under consideration was whether the moderate chastisement defence to a charge of assault, which is based on the common-law right of a parent to administer corporal punishment to his or her children, is compatible with the rights enshrined in the Bill of Rights. The Department in its affidavit stated that reasonable or moderate chastisement defence is not compatible with the rights of children enshrined in the Bill of Rights, thus unconstitutional.

It is important therefore that all defences that relate to use of physical force or neglect and abuse like "reasonable chastisement" be repealed as called for by the Convention on the Rights of the Child (CRC). The legislative measure that the Minister of Social Development has undertaken in line with the recommendation of the CRC is the introduction of the draft National Child Care and Protection Policy and latest draft amendments to the Children's Act.

The High Court delivered judgment whereof it was found, inter alia, that the common law defence of reasonable and moderate chastisement is unconstitutional and no longer applies in South African law.

FORSA approached the Constitutional Court for leave to appeal against part of the judgment. This matter drew huge media and public attention judging from comments that the Department received from members of the public since the publication of the Draft Children's Amendment Bill in the Gazette.

The Constitutional Court was of the view that the right to be free from all forms of violence or to be treated with dignity, coupled with what chastisement does entail, as well as the availability of less restrictive means, speak quite forcefully against the preservation of the common law defence of reasonable and moderate parental chastisement. There is no justification for its continued existence, for it does not only limit the rights in Sections

10 and 12 of the Constitution, but it also violates them unjustifiably.

It concluded by stating that, it suffices to say that any form of violence, including reasonable and moderate chastisement, has always constituted a criminal act known as assault. The effect of relying on this common law defence was to exempt parents from prosecution or conviction. Identical conduct by a person other than a parent on the same child would otherwise constitute indefensible assault.

The Constitutional Court therefore declared that the common law defence of reasonable and moderate parental chastisement is inconsistent with the provisions of Sections 10 and 12(1)(c) of the Constitution. The decision of the Constitutional court means that the common law principle of disciplinary chastisement is no longer a defence where parents and those acting in loco parentis (caregivers) are charged with assault of children.

The North Gauteng High Court matter re the Children with severe or profound disruptive behavioural disorders

The North Gauteng High Court, Pretoria was approached on behalf of a minor child who was suffering from multiple disruptive behavior disorders, claiming sufficient alternative care, considering her disruptive behavior disorders, appropriate mental care on an on-going basis and access to basic education of an adequate quality.

The relief sought was that the Ministers of Social Development, Health and Basic Education should take reasonable measures to make provision for the appropriate alternative care, mental health services, and educational needs for children with severe or profound disruptive behavioral disorders.

The relief sought further that the aforesaid Ministers take reasonable measures to give effect to the rights of children with severe or profound disruptive behavioral disorders by drafting an inter-sectoral policy that ensures that attitudinal and environmental barriers that hinder their full and effective participation in society on an equal basis with others be removed.

An out of court settlement was reached by the parties wherein an Inter-sectoral policy on children with severe or profound disruptive behavior disorder is now in the process of being developed by the Departments of Social Development, Health and Basic Education. The court settlement further provides for certain interim measures to be implemented in ensuring that children with a severe or profound disruptive disorder are provided with appropriate services including prevention and early intervention programmes to caregivers and families of those children.

The policy will be enacted into law addressing the challenges faced by children with severe or profound disruptive behaviour disorders which are not addressed in the Children's Act 38 of 2005. The court order therefore has an impact that will activate the amendment of the Children's Act.

The North Gauteng High Court of Centre for Child Law v Minister of Social Development and 20 Others.

In November 2017, the North Gauteng High Court found that delays by DSD in amending legislation to find solutions and put in place mechanisms, structures and resources to ensure that the foster care system operates effectively are unconstitutional, unlawful and invalid. It granted a court order by agreement between the Centre for Child Law and the Department that provided for an interim regime for the continued payment and management of over 200 000 foster care orders that were due to lapse. DSD was also directed, that within fifteen (15) months of this order, to prepare and introduce before Parliament the necessary amendments to the Children's Act, 2005, and/or the Social Assistance Act, 2014, to produce a comprehensive legal solution for the foster care system. Any foster care order which lapsed was deemed to be validly in place for twenty-four (24) months. This court order was due to lapse on 28 November 2019, the necessary amendments were prepared more particularly to address the backlogs caused by the expiry of the Foster Care Order. It was however, necessary that the requirements of the Constitution be adhered to, more particularly, the right afforded by the Constitution that obliges organs of state such as DSD to promote public participations in law making processes.

During the period between 2017 and 2022, the process to address the aforesaid backlog by amending legislation took effect, and one part of the amendment to the Social Assistance Act and the Children's Act which sought to address the backlog by providing a comprehensive legal solution were passed into law. Regulations in terms of the Social Assistance Amendment Act were also promulgated.

PART B: OUR STRATEGIC FOCUS

MANDATE

The Social Development Sector provides social protection services and leads government efforts to forge partnerships through which vulnerable individuals, groups and communities become capable and self-reliant participants in their own development.

VISION

A caring and self-reliant society

MISSION

Provision of integrated, comprehensive and sustainable social development services

VALUES

- **Respect** – showing due regard for the rights and obligations of others
- **Equality and equity** – treating everyone fairly and equally
- **Accountability** – taking ownership for decisions and actions, and accepting the consequences that come with them
- **Caring** – showing sympathy and concern, embodying heart for all stakeholders and beneficiaries
- **Human dignity** – respecting everyone’s human rights
- **Ubuntu**

PRINCIPLES GUIDING HOW WE WORK

DSD operates according to the following principles:

- **Batho Pele principles** – The Batho Pele principles aim to enhance the quality and accessibility of government services by improving efficiency and accountability to the recipients of public goods and services.
- **Social justice** - Social justice is a concept of fair and just relations between the individual and society. People should have equal access to wealth, health, well-being, justice, and opportunity.
- **Human rights** - are rights inherent to all human beings, regardless of race, sex, nationality, ethnicity, language, religion, or any other status. It includes the right to life and liberty, freedom from slavery and torture, freedom of opinion and expression, the right to work and education, and many more.
- **Good governance** - describes how the Department will conduct public affairs and manage public resources in an effective and responsible manner.

- **Collaboration** - the process of two or more people or organisations working together to complete a task or achieve a goal.
- **Discipline** - the practice of training people to obey rules or a code of behaviour, using punishment to correct disobedience.

1. UPDATED SITUATIONAL ANALYSIS

1.1 EXTERNAL ENVIRONMENT ANALYSIS

Statistics SA has estimated the population of South Africa to be 60,6 million by the end of June 2022. In its Mid-Year Estimates Report, it is highlighted that between 2002 and 2022 South Africa experienced a positive population growth year-on-year. A positive growth rate indicates that the population is increasing, despite the devastating impact of COVID-19 globally and within the South Africa’s borders.

While the country has begun its recovery from the COVID-19 pandemic, it should be noted that the pandemic had brought attention not only to the importance of social services required by people, but also to the age profile of the population and the vulnerability of key populations in the country. The elderly population, who are more vulnerable due to having comorbidities, were more likely to experience the devastating effects of COVID-19. The vast number of deaths within this age group occurring during the COVID-19 pandemic led to a drastic decline in the growth rate (1,47%) of the elderly population. Furthermore, they were likely to be hospitalised and their recovery took longer than other population groups. It is to be noted that there is a significant population of children who receives care from the elderly population group and the Department will be paying close attention to the lasting effects of COVID-19 on the ability of the elderly to provide care to children.

National Population

Table 1 below outlines the mid-year population estimates by population group and sex. The mid-year population estimate is 60,60 million. The black African population is in the majority (49,07 million) and constitutes approximately 81% of the total South African population. The white population is estimated at 4,6 million, the coloured population at 5,3 million and the Indian/Asian population at 1,5 million. Fifty-one per cent (30,98 million) of the population is female.

Table 1: 2022 Mid-year population estimates by population group and sex

Population group	Male		Female		Total	
	Number	% of total male population	Number	% of total female population	Number	% of total population
Black African	23 985 479	81,0	25 085 330	81,0	49 070 809	81,0
Coloured	2 601 932	8,8	2 737 987	8,8	5 339 919	8,8
Indian/Asian	794 882	2,7	760 114	2,5	1 554 996	2,6
White	2 242 589	7,6	2 396 679	7,7	4 639 268	7,7
Total	29 624 882	100,0	30 980 110	100,0	60 604 992	100,0

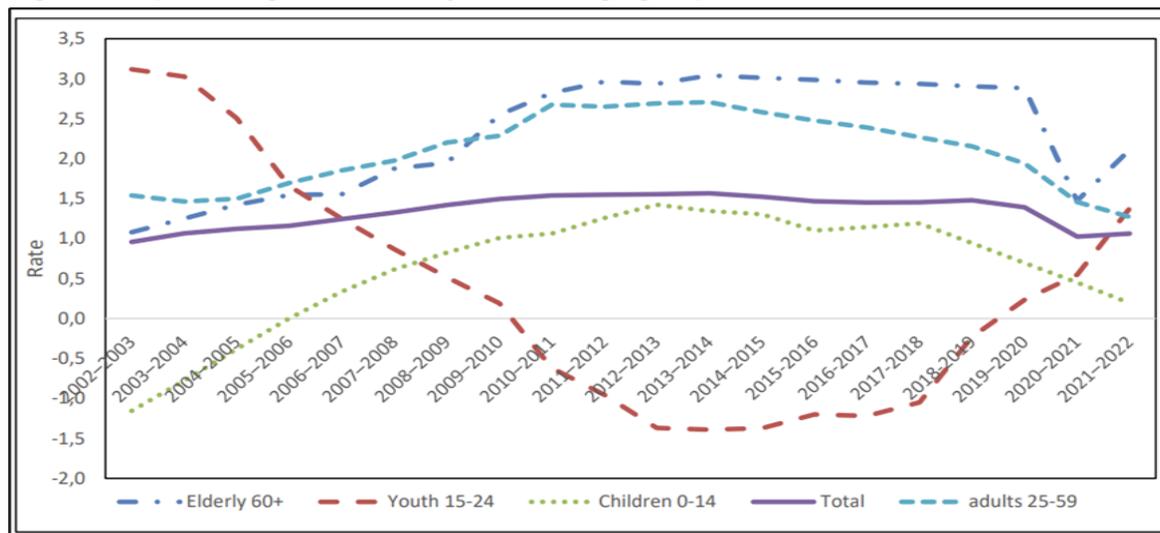

The impact of the COVID-19 deaths is evident in the change in the population structure over the years from 2020–2022, specifically in the elderly aged 60 and older. Figure 1 below shows the rate of growth in various age categories. With the exception of the youth (those aged 15–24), all population age categories reflected a decline in the rate of growth between 2020 and 2021. Population growth rates between 2002 and 2022 reflect changes in fertility, mortality and migration that occurred over decades. Due to achievements in health and wellbeing, population growth rates prior to the COVID-19 pandemic for youth 15–24 and adults 60+ were on the incline. The estimated annual population growth rate increased from 0,96% for the period 2002–2003 to 1,39% for the period 2019–2020. However, in the period, 2020–2021 the overall growth rate declined to 1,03%, which is directly related to the drastic increase in deaths and decline in migration. The overall growth rate is now estimated to be 1,06% in the period 2021–2022.

The proportion of the elderly in South Africa was on the increase with the growth rate among elderly (60 years older) rising from 1,08% for the period 2002–2003 to 2,88% for the period 2019–2020. However, given the high mortality levels among the elderly during the COVID-19

pandemic, the growth rate among the elderly aged 60 and older drastically declined from 2,88% for the period 2019–2020 to 1,47% for the period 2020–2021, this has however bounced back to 2,11% in the period 2021–2022. The social and economic effect of losing so many elderly people to the COVID-19 pandemic is likely to be felt in many years to come. Though not as drastic, the age group 25–59 also saw a decline in the rate of growth for the period 2020–2021 as well as 2021–2022. All three aspects of demography, i.e., declining fertility, declining international migration as well as a significant rise in deaths, significantly influenced the decline in the rate of growth for South Africa as a whole. The shifts in the demographic age and sex profile of South Africa due to the COVID-19 pandemic must be taken into consideration when planning for the future health, economics and welfare.

Given the fluctuation in fertility over time, the increase in the growth rate among children aged 0–14 between 2002 and 2013 is indicative of the rise in fertility between 2004 and 2008, ageing of children into the next age category, as well as the decline in infant and child mortality post-2006. The declining rate of growth post 2018 among children aged 0–14, reflects the overall decline in fertility since 2008.

Figure1: Population growth rates by selected age groups over time, 2002–2022

Children and Youth

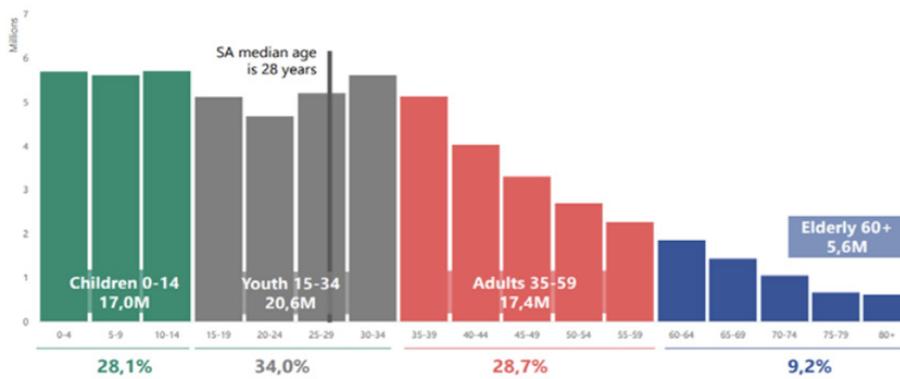

Figure 8 below shows the 2022 mid-year population estimates by age. About 28,1% of the population is aged 0–14 years and approximately 9,2% is 60 years and older. Children and youth are estimated to be 38 million. The impact of the COVID-19 pandemic on the age structure is reflected in the growth rates by selected ages. Figure 8 further shows that the proportion of the elderly in South Africa (60 years and older) was 9,2%. This rose from 1,08% for the period 2002–2003 to 2,88% for the period 2019–2020. However, given the high mortality levels among the elderly during the COVID-19 pandemic, the growth rate among the elderly aged 60 and older declined from 2,88%

for the period 2019–2020 to 1,47% for the period 2020–2021 (Figure 10), this has however bounced back to 2,11% in the period 2021–2022. The age group 25–59 also saw a decline in the rate of growth for the period 2020–2021 as well as 2021–2022.

All three aspects of demography, i.e., declining fertility, declining international migration as well as a significant rise in deaths, significantly influenced the decline in the rate of growth for South Africa as a whole. The shifts in the demographic age and sex profile of South Africa due to the COVID-19 pandemic must be taken into consideration when planning for future health, economics and welfare.

Figure 8: 2022 Population of children and youth in South Africa, 2022

Population age structure 5-year age groups, 2022

Unemployment rate

Furthermore, there has been an increase in the unemployment rate in the country according to Stats SA’s Labour Force Survey 2022. The number of unemployed persons increased by 132 000 to 8,0 million in the second quarter of 2022 compared to the previous quarter. The number of discouraged work-seekers decreased by 183 000 (4,9%) and the number of people who were not economically active for reasons other than discouragement decreased by 452 000 (3,3%) between the two quarters resulting in a net decrease of 635 000 in the not economically active population.

The rise in unemployment is further confounded by sharp increase in the cost of living with the country’s annual inflation rate eased to 7.6% in 2022, from an over 13-year high of 7.8%, but above market expectations of 7.5% and the upper limit of the South African Reserve Bank’s target range of 3%-6%. These figures have a ripple effect to the social sector with a number of people set to become homeless and many falling below the threshold for social assistance. The loss of jobs and loss of elderly caregivers have necessitated review of some social security measures. This will be the inaugural year where an extended child support grant will be implemented. This implementation closely follows the implementation of the social relief of distress grant paid to beneficiaries between 18 years and 35. This grant is necessitated by the high number of young people that are not in education, employment and training (known as the NEET).

The SRD grant targeting the age group 18 – 35 remains a very important support mechanism when taking the Labour Force Survey results which continue to show that youth remain vulnerable in the labour market. The second quarter of 2022 saw the total number of unemployed youth (aged 15-34) increase by 2,0% (or 92,000) to 4,8 million from Q1:2022. There was a noticeable increase of 7,2% or 370 000 in the number of employed youth during the same period. The increase in both employment and unemployment among the youth resulted in a decrease in youth unemployment rate by 1,3 percentage points to 46,5% in Q2:2022.

In addressing the challenges experienced by persons

living with disabilities, the Department will implement Guidelines on Respite Care Services for Families of Children and Persons with Disabilities and develop user specification on community-based system for personal assistance to support independent living within the community for persons living with disabilities. The Department will continue to address challenges experienced by women and young people through this APP. The following programmes provide high level context to some of the interventions to be undertaken:

Comprehensive Social Security

The programme aims to complete the extensive policy proposals on social security reform ranging from integrating children’s grant beneficiaries with government services, introducing voluntary cover retirement and risk benefits for atypical and informal workers and creating a platform for these workers to participate in social security coverage and developing an appropriate institutional architecture for a coherent, efficient and sustainable social security system in the long term. These policy proposals will be consolidated into a single White Paper on Social Security, because of their wide scope and the significant impact they are likely to have on every single person in the country and the economy. It will be essential to consult widely on all aspects and develop a social compact between business, labour and civil society regarding the proposals.

Social grant beneficiaries increased significantly, in particular the child support, and R350 SRD relief grant. The increase in social grant beneficiary numbers represented the success in the mitigation of income poverty and even hunger on the part of the historically disadvantaged people.

Welfare Services Policy Development and Implementation Support

Over the MTEF, the programme will continue to monitor the implementation of the Intersectoral Protocol on Management of Violence Against Children, Child Abuse and exploitation by stakeholders.

Policy on the Provision of Psycho-social Services is part of the unique contribution of the Department in the overall fight against GBV. It is the core mandate of the Department driven by the social service practitioners and requires safeguarding to ensure that it remains a meaningful contribution to the sector. The policy will provide guidance to the sector and will also inform various models to the provision of psycho-social services in different settings (it can also look at the Do's and Dont's by service providers). Over the MTEF period, the programme intends to capacitate stakeholders in GBVF hotspots districts on the provision of psycho-social services policy and intersectoral policy on sheltering in implementing the National Strategic Plan on Gender Based Violence and Femicide (NSP of GBVF).

The psycho-social services policy will result in the reduction of social ills as women, children and other vulnerable groups that have received well-regulated psycho-social services provided by credible service providers will have a better chance to bounciness and self-reliant. The provision of psycho-social services eliminates the chances of victims becoming perpetrators of crime and violence.

The psycho-social services policy has the potential to transform the sector since it will give each role-player clear directions for how to share responsibilities without compromising the professional space for social workers. For instance, defining the restrictions for traditional, professional, and so forth. The lowering of service users' or clients' re-victimization will be the obvious impact. The population most susceptible to re-victimization when obtaining counselling from unregulated providers as part of psycho-social services are victims of sexual offences.

Intersectoral Sheltering Policy aims to reduce social ills as it will ensure that victims of crime and violence, for example, women receive suitable sheltering services that will meet their needs. The policy will look into different models required to cater for various victims including for example young women who will need to be exposed to economic activities in order to exit the shelters with skills to enter the job market or start their own business.

The policy on sheltering services will remove victims from an environment of abuse to an environment where they can positively transform their lives for the better, not just for themselves but their dependents (children) through empowerment programmes offered.

Community Development

As a result of the COVID-19 pandemic, the Department had to continue providing food parcels to impoverished and vulnerable persons and households. Over the past years, Government has implemented various poverty alleviation measures, with Social Protection as a Constitutional Right being at the centre. These interventions include the: Expanded Public Works Programme, Community Work Programme, Jobs Summit, Jobs Fund, Youth Employment

Service, etc., to lift unemployed citizens out of poverty. Community development programme implementation is geared towards empowering communities through capacity enhancement and creation of structures. Poverty and inequality continue to ravage communities as experienced through multi deprivation and vulnerabilities which includes poor nutrition, unemployment, poor education and poor health outcomes. The programme will intensify its efforts to ensure that vulnerable households and communities are profiled to determine their socio-economic needs. The programme will conduct community capacity enhancement in all nine (9) provinces to bolster social cohesion.

As part of tackling social problems in communities and prevention, functional community structures will be built. The initiative intends to link 2% of the 19,1 million grant recipients with sustainable livelihood opportunities in order to reduce poverty and create sustainable communities. The biggest contribution of this programme to fulfilling the Department's purpose is the creation of sustainable, thriving, and healthy communities, and this effort is carried out across all of the provinces. The programme will make it easier to put the NPO Funding Policy and Partnership Model into practice, guaranteeing consistency throughout the Sector. Additionally, the programme will see to it that a comprehensive policy for community development is created and implemented in the nation.

Through the EPWP, the programme will continue to create meaningful work opportunities as a social protection safety net for vulnerable individuals over the MTEF period. This is in line with government's commitment to job creation as contained in the Phase 4 EPWP business plan approved by Cabinet.

The programme also administers the NPO Act and has identified the following outputs; NPO Policy framework, turnaround time on NPO registration and the NPO compliance monitoring as pillars that will ensure the outcome "Reduced levels of poverty" is achieved. This is hoped to be achieved by increasing public trust and confidence through effective yet fair regulation of Non-Profit Organisations.

1.2 INTERNAL ENVIRONMENT ANALYSIS

The Social Development Sector provides social protection services and leads government efforts to forge partnerships through which vulnerable individuals, groups and communities become capable and self-reliant participants. This mandate requires the organisational structure and the fiscal resources to effectively address the triple challenges of poverty, unemployment and inequality as articulated in the National Development Plan (NDP).

This APP reflects the commitments of the NDP, MTSF Priorities, NASP 2023/2024, Political Priorities, Executive

Performance Agreement, BRRR as well as the specific DSD mandate and context, to improve the quality of life for the poor and vulnerable.

The DSD together with SASSA and NDA have taken into consideration the issues emanating from the Presidents' SONA 2023 and the alignment of the APP to the Economic Reconstruction and Recovery Plan. Among others, the following performance areas reflects the alignment of the APP to the Economic Reconstruction and Recovery Plan:

- Create 176 474 EPWP work opportunities through Social Sector EPWP Programmes
- Monthly payment of social grant beneficiaries as administered and paid by SASSA on behalf of DSD
- R350 cSRD Grant
- Report on the State of the People of South Africa produced
- Sector strategy for the employment of Social Service Professionals approved
- Social Welfare Index Report developed
- Policy on Income Support for 18 to 59-year-olds approved
- Youth participating in skills development programmes
- Policy on integrating children's grant beneficiaries with government services approved
- Programme to link social protection beneficiaries to sustainable livelihood opportunities implemented
- National Food and Nutrition Security Plan implemented
- Supporting women-empowered companies (40%)

The DSD Sector is continuing its path of "re-inventing" itself through making a number of strategic shifts from its current trajectory in order to deliver effectively and efficiently on its mandate. DSD will continue to take lessons from the challenges experienced due to COVID-19, the imminent budget cuts, systemic issues and the increased demand for services. Therefore, the realisation of future APP targets will demand us to be innovative using technology and maximise partnership opportunities and improved coordination of the DSD

Sector. DSD has begun a fundamental paradigm shift to ensure that all plans begin to address the felt needs of the people.

HSDS adopted a mantra "Building cohesive, resilient families and communities by investing in people to reduce poverty and vulnerability to create sustainable livelihoods" to re-invent the DSD Sector. Imvuselelo/ Revival was convened to begin to unpack this mantra and create a platform to kick-off the planning process for the 2022/23, to advance the commitment of re-inventing the DSD Sector.

At the Imvuselelo, the following sector outputs were adopted to be part of the APP:

1. Create jobs for youth, women and persons with disabilities
2. Link beneficiaries to economic opportunities
3. Sector service delivery model designed – including shared services model
4. Organisation structures designed that enable greater service delivery and customer focus
5. Build sector capacity
6. Development of sector wide monitoring and evaluation (M&E) framework
7. Clearly defined portfolio roles and responsibilities
8. Definition of the link between social development and social welfare
9. Research agenda for the sector
10. Develop Social Welfare Index
11. Design the integrated social protection information system
12. Identify digitisation opportunities to improve service delivery access and quality
13. Develop the One Plan for the sector that incorporates the fifty-two (52) district plans
14. Develop the State and CSO partnership model
15. Promote the social development brand

These outputs will be implemented through the APPs of the DSD Sector.

Two key developments both in the Department and the globe generally determined the key focus areas and the state of human resources.

Firstly, the MTSF process provided the Department with an opportunity to review and revisit its strategic trajectory. As a result, the Department embarked on a process to “re-invent/re-imagine” as the strategic thrust of the Department. This MTSF process had major implications for the human resource function of the Department. The organisational structure of the Department had to be aligned to the new re-imagined/re-invented strategy to ensure effective service delivery. The Government Technical Advisory Services was enlisted to support the Department in the re-alignment exercise.

The COVID-19 pandemic was the second area that required the human resources function of the Department to review its modus operandi as it had to respond to the various levels of lockdowns, regulations issued by the Department of Health and Department of Employment and Labour as well as Department of Public Service and Administration Directives and Circulars.

a) Re-alignment of Organisational Structure:

The first key priority area during the period under review was, as alluded to earlier, the realignment of the organisational structure to the strategy. The approach taken by the Department was to follow a holistic approach and not review the structure in isolation to key dependencies in the value chain that would support an effective organisation. The approach was therefore to start with defining the service delivery model, which had been concluded, look at the leadership model that will support the structure and then the Department concluded that it would use a parenting leadership approach to support the Social Development sector (provinces and the agencies). The model has been accepted by all stakeholders in the Sector. This was followed by an Ethics and Culture Survey to address both the morale of staff and more importantly the need to have an ethically driven Department. The outcomes of the Culture survey will be implemented in the next cycle whilst the draft Ethics Framework and Strategy has been developed.

The structure will be implemented once the two outstanding processes are finalised, which are the Business Process Mapping and Work Measurement. These two activities together with what has been already done is what the Department believes will be a strong foundation for effective service delivery.

b) Employee Health and Wellness

The COVID-19 pandemic required a special focus and approach in the delivery of services and the manner in which the Department operates. The Department adopted a Risk Adjusted Approach in the Management of COVID-19 in the Workplace. The point of departure was to conduct a risk assessment, develop a risk report and address all the findings to make the work environment conducive. In addition, the Department had to comply with all the rules, regulations, directives and circulars in the management of the pandemic.

The success in managing the COVID-19 related issues in the workplace was to put in place a governance structure comprising of EHW, OHS, Labour and the stakeholders to ensure the proper management of same. The Department appointed three (3) nursing staff on contract to support it in the new processes of screening, social distancing, contact tracing and support to those affected and infected

by the virus.

The Department developed a protocol for the management of COVID-19 in the workplace and issued regular communication to staff. Regular information on the fundamentals of sanitisation, social distancing and general hygiene was distributed to all staff, something that the Department believes was key in the effective management of the virus in the workplace. Like all countries, South Africa in general and the public service in particular was not immune to the impact of the virus.

c) Capacity to deliver on its mandate:

In order to have a fully effective Department, it is critical to fill vacant funded posts as soon as possible. With the current vacancy of 8% and the reduction in compensation budgets, the Department will prioritise critical posts aligned to the reviewed organisational structure to ensure that the core mandate will be met. The prioritisation of women, youth and persons with disabilities will remain a priority as the Department fills the prioritised posts in line with the Departmental Employment Equity Targets.

The Department has also taken a conscious decision not to fill posts for the sake of reducing the vacancy rate but to identify posts and skills that are critical, and prioritise filling these position. As a result, the Department will be prioritising specialist posts (actuarialists, researchers, developers, data analysts and ICT skills) for filling. The additional demand for services since the COVID-19 pandemic has required the Department to adopt alternative recruitment methods to ensure capacity for the sector to deal with the increased demand for social services. The Department appointed approximately one thousand, three hundred (1 300) social workers to provide psycho-social support to those affected by COVID-19. The model of employment required that the appointments be done at the national Department whilst the placement and management was the responsibility of provincial departments. The first phase of appointments were for three (3) months commencing in June and July 2020 respectively and the second phase commenced in November and December 2020 until 31 March 2021. With the additional allocations to provincial Social Development Departments approximately three thousand (3 000) contract social workers have been appointed to provide support for the period 01 December 2021 to 31 March 2022. The Department will continue to engage National Treasury to secure additional funding to employ additional Social Service Professionals in the country.

d) Integrated service delivery model

The Department will finalise the integrated service delivery model in ensuring that the structures and the strategies are aligned for effective service delivery.

e) Implementation of the Ethics Strategy and Execution Diligence avxre prioritised for the implementation of the APP.

f) The Department is also in compliance with all government-wide legislations including BBBEE and continue to put measures in place for more qualitative improvement.

THEORY OF CHANGE FOR SOCIAL DEVELOPMENT

The constitutional mandate of the national Department of Social Development is to provide sector wide national leadership in social development. Based on its mandate, the national DSD serves as the central coordinating body for the social development sector, develops and

implements programmes for the eradication of poverty, social protection, social welfare, and social development amongst the poor and vulnerable. The national DSD is responsible for policy and programme development, which are then implemented by the nine (9) provincial Departments of Social Development. The strategy for reaching the target populations involves partnership with an extensive network of Non-Profit Organisations (NPOs) which serve as the main service delivery agents at provincial and local level.

The mission of the Department of Social Development is to provide integrated, comprehensive and sustainable social development services with a long-term goal of improving the quality of life for the poor and vulnerable. In order to reach the long-term goal, the Department needs to reduce levels of poverty, inequality, vulnerability and social ills. The Department further needs to empower individuals and families to become resilient and to support communities to become sustainable. In order to achieve this, the Department needs to ensure a functional, efficient and integrated social development sector. The national DSD has three (3) programmes that deliver services to vulnerable beneficiaries; Welfare Services, Community Development and Comprehensive Social Security. These programmes have sub-programmes designed to deliver specific services to targeted beneficiaries.

The objective of the Welfare Services Programme is to create and provide social protection to the most vulnerable of society through the delivery of developmental social welfare services, delivered through provincial government and NPO structures. This programme contributes to the achievement of the DSD's long-term goal by focussing on improving the lives of people in South Africa who have no or limited social protection through the delivery of developmental welfare services to ensure their needs are met, their exposure to risk is reduced and their capacity to address the challenges they face is enhanced.

The key outcomes for the Welfare Services Programme are the following:

- Children are safe, appropriately cared for and their rights are protected.
- Reduced effects of social crime by children and youth in communities.
- Families are resilient in meeting their members' needs and dealing with challenges.
- Reduced social ills associated with substance abuse.
- Victims of violence receive the assistance that they need to recover from their traumatic experience.
- Older persons are safe, appropriately cared for and their needs are met.
- Improved welfare services capability to deliver social development services.
- Reduced psycho-social impact of HIV and AIDS in communities.

The objective of the Community Development Programme is to deliver effective, integrated and sustainable development services that rebuilds families and communities through empowerment of the young, elderly, persons with disabilities and women in partnership with civil society.

The Community Development Programme contributes to the achievement of DSD's long-term goal of an improved quality of life for the poor and vulnerable. This is executed by working with families, households and communities to restore their resilience and develop sustainable strategies to meet their needs, as well as assisting in the reduction of poverty, inequality and social ills through facilitating the development of sustainable livelihoods. In order to effectively restore their resilience and develop sustainable livelihoods; families, households and communities need to not only participate in their own development, but to also direct their development. They need to be part of the planning and decision making processes affecting their lives.

The outcomes for Community Development are the following:

- Community members participate in the development of community-based plans for their communities.
- Community members take the opportunities to actively engage in the development of their communities.
- Youth actively participate in their own development and develop the skills they need to effectively navigate early adulthood.
- People living in poor communities' food and nutrition status is sustainable and improved.
- Individuals and households' livelihoods improve.
- NPOs deliver quality services to targeted beneficiaries.
- Professional community development practitioners deliver an effective service in the community development sector

The goal of the Comprehensive Social Security Programme is to deliver an effective comprehensive social protection system that assists in the alleviation and reduction of poverty, social exclusion and inequality. The Comprehensive Social Security Programme fulfils its mandate in collaboration with the South African Social Security Agency (SASSA). SASSA distributes social grants on behalf of DSD. DSD has an oversight role over SASSA but no operational control over it.

The Comprehensive Social Security Programme contributes to the achievement of DSD's long-term goal of an improved quality of life for the poor and vulnerable by providing a comprehensive social protection system that assists in poverty reduction, thereby reducing social exclusion and inequality in South Africa.

Key outcomes for Social Security are the following:

- Clear and comprehensive legislation and policy framework enabling the effective allocation and distribution of social assistance by SASSA.
- All Social Assistance Appeals are fairly and timeously considered and have clear conclusions that ensure the fair allocation of social assistance to eligible people.
- Clear and comprehensive legislation and policy framework governing social insurance that ensures improved coverage and efficiency of social insurance.
- Fraud and corruption in the SASSA system identified and the integrity of the system protected and maintained.

PESTEL-SWOT ANALYSIS

The DSD has undertaken an in-depth situational analysis using the planning combination of both PESTEL-SWOT analysis, to detect how elements of the external environment and the identified strengths, weaknesses, opportunities and threats that would need to be addressed for it to operate effectively, efficiently and to deliver on the impact that it seeks to achieve.

PESTEL	STRENGTHS	WEAKNESSES	OPPORTUNITIES	THREATS	STRATEGY TO LEVERAGE ON OPPORTUNITIES	STRATEGY TO MINIMISE IMPACT OF THE THREATS
POLITICAL	<ul style="list-style-type: none"> Political will. Political leadership. 	<ul style="list-style-type: none"> Political priorities not aligning at the different levels. Lack of consensus. 	<ul style="list-style-type: none"> Political support and championing of the Department's programmes. Political commitment. 	<ul style="list-style-type: none"> Change in political priorities. Conflict between political mandate and administrative priorities. Loss of momentum. Change of political administration. 	<ul style="list-style-type: none"> Design and develop flagship programmes for political leadership. Allowing political leadership to champion programmes and interventions. Lobbying the political head. 	<ul style="list-style-type: none"> Induction for political leadership to understand the Department's programmes and priorities. Alignment of political office and Department's programmes. Strengthen communication. Consistent lobbying.
ECONOMIC	<ul style="list-style-type: none"> SA has financial power to sustain its people. Available project budget. 	<ul style="list-style-type: none"> Limited financial resources. Unequal distribution. High levels of corruption. Limited trust of government. Exclusion of poor people in economic activities. High unemployment. PART C: MEASURING OUR PERFORMANCE

1. Institutional Programme Performance Information

1.1 PROGRAMME 1: ADMINISTRATION

1.1.1 Purpose:

To provide leadership, management and support services to the Department and the social sector.

This programme consists of the following sub-programmes:

- The **Ministry of Social Development** provides overall political leadership to the Department and sector and liaises with other ministries and the Office of the President
- **Departmental Management** promotes effective planning, improves operational efficiency, and oversees the implementation of policies through monitoring and evaluation (M&E)
- **Corporate Management** provides administrative support to line functions within the Department
- **Finance** plans and monitors the national and provincial budgets and expenditure, and manages the Department's accounting and procurement system
- **Internal Audit** is an independent and objective appraisal function which provides assurance to the Accounting Officer, senior management and the Audit Committee, in respect of the adequacy and efficacy of the risk management, control and governance processes in the Department's operations; and
- **Office Accommodation** ensures the provision and maintenance of office accommodation, lease administration, and cleaning services.

1.2 SUB-PROGRAMMES

3. EXPLANATION OF PLANNED PERFORMANCE OVER THE MEDIUM-TERM PERIOD

Programme 1 (Administration) is a strategic partner to the core business of the Department and is regulated by a myriad of legislation. It is responsible for ensuring that effective and efficient governance systems are in place to create an enabling environment for DSD to deliver on its mandate.

In view thereof, the programme has set itself the target to develop sector strategies, policies and frameworks in the following areas; Strategy, Human Resources, Infrastructure, Governance, digital Monitoring and Evaluation. The programmes aim to table the SASSA Amendment Bill to Parliament for approval, once promulgated these Acts will address the existing gaps and inconsistencies in the legislation. During the MTEF period, the programme intends to present the Social Development Bill to Cabinet for approval. The Act will be an overarching legislation that will provide an inclusive and responsive social development system that comprehensively responds to the needs of all South Africans.

The programme is in the process of amending the Non-Profit Organisation Act and the National Development Agency. The NPO Amendment Bill seeks to amend the current

Non-Profit Organisations (NPO) Act, 1997 (Act 71 of 1997). The Act was meant to create an enabling environment in which NPOs could be formed and function optimally. Overtime gaps have been identified, particularly on smaller NPOs and community-based organisations. The proposed amendment will address challenges faced by smaller NPOs, deal with abuse of NPOs and simplify accessibility procedures. It also proposes the setting up of the NPO Registrar to strengthen the servicing, monitoring and promotion of transparency and accountability of the NPOs. On the other hand, the NDA Amendment Bill aims to amend the provisions that relate to the object and the function of the Agency. Furthermore, the programme will complete the drafting of regulations on the Older Persons Amendment Bill and the Children's Amendment Bill. The regulations will serve as the subsidiary to the legislation defining the essence of the Acts. These regulations will further outline the manner in which the Acts need to be implemented.

In addition, this programme will finalise the implementation of the National Integrated Social Protection Information System (NISPI). NISPIS seeks to integrate the social protection information systems for better delivery of services.

PROGRAMME 2: SOCIAL ASSISTANCE

Purpose:

Ensure provision of social assistance to eligible beneficiaries in terms of the Social Assistance Act (No. 13 of 2004) and its regulations.

Sub-programmes:

The programme consists of payments made to beneficiaries for the provision of social grants as administered and paid by SASSA on behalf of DSD:

- **Older Persons Grant:** To provide income support to people aged 60 and older earning less than R87 720 (single) and R175 440 (married) a year, whose assets do not exceed R1 247 400 (single) and R2 494 800 (married).
- **War Veterans Grant:** To provide income support to men and women who fought in World War II or the Korean War.
- **Disability Grant:** To provide income support to people with permanent or temporary disabilities earning less than R87 720 (single) and R175 440 (married) a year, whose assets do not exceed R1 247 400 (single) and R2 949 800 (married).
- **Foster Child Grant:** To provide grants for children placed in foster care.
- **Care Dependency Grant:** To provide income support to caregivers earning not more than R226 800 (single) and R 453 600 (married) a year in order to help them care for children who are mentally or physically disabled.
- **Child Support Grant:** To provide income support to parents and caregivers of children under 18 earning not more than R55 200 (single) and R110 400 (married) a year.
- **Grant-in-Aid:** To provide additional benefit to recipients of the Older Persons, Disability or War Veterans Grants that require regular care.
- **Social Relief of Distress:** To provide temporary income support, food parcels, and other forms of relief to people experiencing hardship.

Monthly payment of social grant beneficiaries as administered and paid by SASSA on behalf of DSD	Transfer R253 billion to SASSA for administration and payment of social grants to beneficiaries on behalf of DSD	Transfer R63.25 billion to SASSA for administration and payment of social grants to beneficiaries on behalf of DSD	Transfer R63.25 billion to SASSA for administration and payment of social grants to beneficiaries on behalf of DSD	Transfer R63.25 billion to SASSA for administration and payment of social grants to beneficiaries on behalf of DSD	Transfer R63.25 billion to SASSA for administration and payment of social grants to beneficiaries on behalf of DSD

EXPLANATION OF PLANNED PERFORMANCE OVER THE MEDIUM-TERM PERIOD

Over the medium-term, DSD will continue to transfer funds for the provision of social grants as administered and paid by SASSA for the provision of social grants to the elderly, children, war veterans and persons with disabilities. Social grants account for an estimated 94.3% (R195 billion per year on average) of the Department's total budget over the MTEF period. SASSA is mandated to pay social grants to 19.1 million beneficiaries in 2022/2023 (in line with National Treasury final projection).

Spending on grants is expected to increase at an average annual rate of 7.5 per cent over the medium term. This is mostly due to inflationary adjustments to the value of the grants and growth in the number of beneficiaries. The elderly population, that is people older than 60, is growing by 3% per year. As the elderly population grows, the number of beneficiaries who receive the old age grant is expected to increase. As the child population grows, the number of beneficiaries who receive child support grants is expected to increase. The high levels of unemployment

and poverty in the country, combined with high wage inequality and low labour market participation, are contributory factors to the growth of social grants to children. Furthermore, the continuing trend of generally low wages paid to those who are working means that a high proportion of working --parents do not earn sufficient wages to adequately provide. for their children.

For the foreseeable future, the social assistance programme will continue to be an important lever in government's arsenal to tackle poverty and inequality. In the immediate future and as the country battles the after effects of the COVID-19 pandemic, the social assistance system has become even more important as a key response to mitigate the severe impact on incomes and livelihoods of vulnerable workers and their households. The economic fallout of the pandemic continues to reverberate across the economy, necessitating urgent intervention including the increased allocation of R40 billion.

PROGRAMME 3: SOCIAL SECURITY AND ADMINISTRATION

Purpose:

To provide for social security policy development, administrative justice, the administration of social grants, and the reduction of incorrect benefit payments.

Sub-programmes:

This programme consists of the following sub-programmes:

- **Social Security Policy Development** develops and reviews policies and legislation in respect of social assistance, as well as contributory income support aimed at protecting households against life cycle contingencies such as unemployment, ill health, retirement, disability, or the death of a breadwinner.
- **Social Grants Administration** provides SASSA with its operational funds.
- **Social Grants Fraud Investigations** funds fraud investigations by the Special Investigations Unit.
- **Appeals Adjudication** seeks to provide a fair and just adjudication service for social assistance appeals; and
- **Inspectorate for Social Security** maintains the integrity of the social assistance framework and systems.

EXPLANATION OF PLANNED PERFORMANCE OVER THE MEDIUM-TERM PERIOD

The programme aims to complete the extensive policy proposals on social security reform ranging from integrating children’s grant beneficiaries with government services, introducing voluntary cover retirement and risk benefits for atypical and informal workers and creating a platform for these workers to participate in social security coverage and developing an appropriate institutional architecture for a coherent, efficient and sustainable social security system in the long term. The severe impact of the pandemic on the economy and its ability to create jobs has raised new questions about the reliance on economic growth to address unemployment and poverty. This has revived interest in the prospect of a basic income grant as another lever to tackle poverty, inequality and gender imbalances towards a more inclusive growth path. The programme intends to

submit the draft Policy on Income Support for 18- to 59-year-olds to Cabinet for approval. Policy Development will continue to address very specific social security coverage gaps in relation to pregnant and lactating women, and institutional mechanisms. The intention is to submit the draft Policy on Maternal Support for vulnerable pregnant women and children to Cabinet. This policy seeks to provide comprehensive support to vulnerable pregnant women who are unable to support themselves. The main intent is to provide social assistance for vulnerable pregnant women in order to improve the health and wellbeing of vulnerable mothers and their unborn children as well as prevent impairments or disabilities that may develop due to lack of support during and after pregnancy.

PROGRAMME 4: WELFARE SERVICES POLICY DEVELOPMENT AND IMPLEMENTATION SUPPORT

Purpose:

To create an enabling environment for the delivery of equitable developmental welfare services through the formulation of policies, norms and standards, best practices and support to implementing agencies

Sub-programmes:

- **Service Standards** ensures the transformation and standardisation of social welfare services through the development and coordination of overarching policies and legislation that promote integrated, quality-driven, professional and accountable service delivery.
- **Social Service Professional Support** provides overarching policies, legislation and programmes for regulation of social service professions.
- **Substance Abuse** develops, supports and monitors the implementation of policies, legislation, and norms and standards for combating substance abuse.
- **Older Persons** develops, supports and monitors the implementation of policies, legislation, and norms and standards for social welfare services to older people.
- **Services to People with Disability** promotes the empowerment and rights of persons living with disabilities through accelerated mainstreaming of disability considerations and the strengthening of disability specific service.
- **Children** develops, supports and monitor the implementation of policies, legislation and norms and standards for social welfare services to children.
- **Families** develops, supports and monitors the implementation of policies, legislation and programmes for services aimed at strengthening families.
- **Social Crime Prevention and Victim Empowerment** develops, supports and monitors the implementation of policies, legislation and programmes aimed at protecting, empowering, and supporting victims of crime and violence; and
- **HIV and AIDS** develops, supports and monitors the implementation of policies, programmes and guidelines aimed at preventing and mitigating the impact of HIV and AIDS in line with the 2023 – 2028 National Strategic Plan (NSP) for HIV, TB and STIs.

EXPLANATION OF PLANNED PERFORMANCE OVER THE MEDIUM-TERM PERIOD

The outcomes are in keeping with the requirement to make sure that people, families, and communities are strengthened and equipped to combat the HIV and AIDS pandemic. The psycho-social support programmes are designed to develop the skills and capabilities necessary for these groups to successfully manage relationships while managing the demands and stresses of everyday life. Building the competence of social service practitioners is one of the strategies that some of the programmes use to facilitate the mainstreaming of counselling, testing, treatment, and adherence support for children and adolescents.

Similar to this, several HIV prevention programmes make sure that adolescent girls, young women, and boys have the skills necessary to resist pressure to engage in risky sexual behaviour and to make wise decisions. In the end, this will lead to a society where people are empowered and strengthened to combat the HIV epidemic, and where women, children, and people with disabilities are among the core populations identified as vulnerable in the National Strategic Plan for HIV, TB, and STIs (2017-2022).

The transformation and standardisation of social welfare services continue to receive priority attention through the development and coordination of overarching policies and legislative frameworks, norms and standards that promote integrated, quality-driven, professional and accountable service delivery. In this regard, the government also ensures the training of social work professionals, facilitates their employment or absorption to ensure improved human capacity for the sector, thus contributing to youth employment. Additionally, the development of policies, legislation, norms, and standards for the provision of social welfare services to older persons, the implementation thereof as well as monitoring to this effect, continues to remain priority for government.

In relation to the 2nd Children’s Amendment Act, government social workers are expected to render adoption services. Capacity building on the Adoption Policy Framework and Strategy will be conducted to empower them to render the services. The aim is to capacitate Social Workers in nine (9) provinces so that they all render uniform and standardised services. Furthermore, in the MTEF period, the programme will conduct capacity building of Social Workers on Adoption Services and the implementation of Guidelines on Community-Based Prevention and Early Intervention Services to vulnerable children.

The care and protection of children is a Constitutional obligation. The Children’s Act is government’s premier instrument to promote, prevent and protect its most vulnerable citizens, the children. According to Statistics South Africa, six (6) out of ten (10) children in South Africa live under the poverty line and receive child support grants. Therefore, an investment in children is critical to break the countries’ violence, poverty and inequality scourge.

Over the Medium-Term, the Department’s programme will begin monitoring the implementation of the White Paper on Social Development in provinces. The Department will continue to monitor the implementation of the Guidelines on Community-Based Prevention and Early Intervention Services to vulnerable children. These guidelines are aimed at addressing their challenges at an early stage to avoid them going deeper into statutory services. The guidelines have been developed to allow for uniform and standardised services to be rendered across all the provinces. A monitoring tool has been developed to oversee the effective and efficient provisioning of the services. The monitoring tool has been approved. The provinces are in the process of reporting against these approved tools.

The Intersectoral Protocol on the Prevention and Management of Violence Against Children, Child Abuse,

Neglect and Exploitation has been developed. Over the MTEF, the programme will continue to monitor the implementation of the intersectoral protocol by stakeholders.

The provision of psycho-social service is part of the unique contribution of the Department in the overall fight against GBV. It is the core mandate of the Department driven by the social service practitioners and requires safeguarding to ensure that it remains a meaningful contribution to the sector. The policy will provide guidance to the sector and will also inform various models to the provision of psycho-social services in different settings, it will also look at the Do’s and Dont’s by service providers. Over the MTEF period, the programme intends to capacitate stakeholders in GBVF hotspot districts on the Psycho-social Services Policy and Intersectoral Policy on Sheltering Services in implementing the NSP.

The Psycho-social Services Policy will result in the reduction of social ills as women, children and other vulnerable groups that have received well-regulated psycho-social services provided by credible service providers will have a better chance to bounciness and to be self-reliant. The provision of psycho-social services eliminates the chances of victims becoming perpetrators of crime and violence.

The policy has the potential to transform the sector since it will give each role-player clear directions for how to share responsibilities without compromising the professional space for social workers. For instance, it defines the restrictions for traditional, professional, and so forth. The lowering of service users’ or clients’ re-victimisation will be the obvious impact. The populations most susceptible to re-victimisation when obtaining counselling from unregulated providers as part of psycho-social services are victims of sexual offences.

Intersectoral Sheltering Policy aims to reduce social ills as it will ensure that victims of crime and violence, for example, women receive suitable sheltering services that will meet their needs. The policy will look into different models required to cater for various victims including for example young women who will need to be exposed to economic activities in order to exit the shelters with skills to enter the job market or start their own business.

The Policy on Sheltering Services will remove victims from an environment of abuse to an environment where they can positively transform their lives for the better, not just for themselves but their dependents (children) through the empowerment programmes that are offered.

The need to guarantee that people, families, and communities are empowered and made resilient in light of the high levels of violence in society must be met by ongoing educational and awareness efforts. Age, gang engagement level, and the seriousness of the offences all affect the complexity and social phenomena that gang activity is. The results of the study on gangsterism will help the community’s ability to keep children out of gangs. The social crime prevention plan will guarantee a drop in crime rates.

Capacity building of social workers on the Universal Treatment Curriculum will enhance the provision of quality services particularly at treatment centres. It will ensure that treatment services are measurable and can be monitored. The training will reduce the high relapse rate and ultimately prevent the scourge of substance abuse in communities and families. It forms part of the implementation of the National Drug Master Plan (NDMP) which is implemented in a comprehensive manner and will reduce social ills. The implementation of the NDMP will assist communities to come together, own up to their social challenges and act on them. The impact of this intervention is that people and communities are and feel safe.

PROGRAMME 5: SOCIAL POLICY AND INTERGRATED SERVICE DELIVERY

Purpose:

To develop and facilitate the implementation of policies, guidelines, norms and standards for the effective and efficient delivery of community development services to enable the poor, the vulnerable and the excluded within South African society to secure a better life and build sustainable, vibrant and healthy communities.

Sub-programmes

This programme consists of the following sub-programmes:

- **Special Projects and Innovation** provides for the coordination, incubation and innovation of the Department's and social cluster initiatives such as the Expanded Public Works Programme (EPWP).
- **Population and Development** supports, monitors and evaluates the implementation of the White Paper on Population Policy for South Africa. This is done by conducting research on the country's population trends and dynamics; raising awareness of population and development concerns; and supporting and building the technical capacity of national, provincial and local government and other stakeholders to implement the Population Policy strategies. It also monitors progress made with regards to implementing the Population Policy in different spheres and sectors of government, and reports back on progress made, to Cabinet, the Southern African Development Community (SADC), the African Population Commission and the UN Commission on Population and Development.
- **Registration and Compliance Monitoring of NPOs** registers and monitors NPOs in terms of the Non-Profit Organisations Act 71 of 1997.
- **Substance Abuse Advisory Services and Oversight** monitors the implementation of policies, legislation and norms and standards aimed at combating substance abuse.
- **Community Development** develops and facilitates the implementation of policies, guidelines, norms and standards for ensuring the effective and efficient delivery of community development services and programmes.
- **Poverty Alleviation, Sustainable Livelihoods and Food Security** facilitates the implementation of policies, guidelines, norms and standards to build self-reliance and cohesive communities.
- **Youth Development** develops and facilitates the implementation of policies, legislation and programmes aimed at empowering the youth.
- The **National Development Agency (NDA)** provides grants to civil society organisations to implement sustainable community-driven projects that address food security, create employment and income opportunities.
- **NPO Funding Coordination** develops and facilitates the implementation of policies, guidelines to ensure effective and uniform funding of Non-Profit Organisations in the sector.

EXPLANATION OF PLANNED PERFORMANCE OVER THE MEDIUM-TERM PERIOD

The community development programme implementation is geared towards empowering communities through capacity enhancement and creation of structures. Poverty and inequality continues to ravage communities as experienced through multi deprivation and vulnerabilities that includes poor nutrition, unemployment, poor education and poor health outcomes. The programme will intensify its efforts to ensure that vulnerable households and communities are profiled to determine their socio-economic needs. The programme will conduct community capacity enhancement in all nine (9) provinces to bolster social cohesion.

As part of tackling social problems in communities and prevention thereof, functional community structures will be built. The initiative intends to link 2% of the 19,1 million grant recipients with sustainable livelihood opportunities in order to reduce poverty and create sustainable communities. The biggest contribution of this programme to fulfilling the Department's purpose is the creation of sustainable, thriving, and healthy communities, and this effort is carried out across all of the provinces. The programme will make it easier to put the NPO Funding Policy and Partnership Model into practice, guaranteeing consistency throughout the sector. Additionally, the programme will see to it that a comprehensive policy for community development is created and implemented in the nation.

Through the EPWP, the programme will continue to create meaningful work opportunities as a social protection safety net for vulnerable individuals over the MTSF period. This is in line with government's commitment to create jobs as contained in the Phase 4 EPWP business plan that has been approved by Cabinet.

The programme also administers the NPO Act and has identified the following outputs; NPO Policy Framework, turnaround time on NPO registration, NPO compliance monitoring, and NPO education and awareness programmes as pillars that will ensure the outcome 'reduced levels of poverty' is achieved. This will be achieved by increasing public trust and confidence through effective yet fair regulation of Non-Profit Organisations.

The Department's outcome of reducing poverty levels requires the contribution of the NPO sector in delivering programmes towards achieving the set outcome. This requires that NPOs understand the NPO legislation and compliance thereof in order to be credible and accountable entities that can deliver on their respective mandates. The planned outputs on the provision of education and awareness programmes to NPOs will lead to an empowered and strengthened sector that is able to deliver quality services to vulnerable and poor communities, thus improving quality of life.

The programme will in the next MTSF implement the National Food and Nutrition Security Plan for South Africa that seeks to ensure implementation of food and nutrition security initiatives targeting the vulnerable individuals and households. This will be accomplished through coordination of the DSD food and nutrition interventions which include all centre-based feeding programmes providing nutritious food to the poor and vulnerable in partnership with civil society organizations, social partners and agencies.

The Department is also in the process of amending the National Development Act. The amendments to the Act will address the current challenges in the implementation of the NDA Act.

Community development will seek to ensure the development of the National Community Development Policy Framework, with an emphasis on the creation of vibrant and sustainable communities. The Department will also prioritise the linking of CSG recipients below 60 years of age to sustainable livelihood opportunities. The Community Development Branch will continue with the development of a policy framework, guidelines and tools to enhance community development within the country.

6. UPDATED KEY RISKS AND MITIGATION FROM THE SP

OUTCOME	KEY RISK	RISK MITIGATION
1. Reduced levels of poverty, inequality, vulnerability and social ills	Due to the interdependent nature of the work of the Department, there is a chance that DSD would not receive the necessary cooperation from other departments and spheres of government to implement the DSD programmes, which may lead to the non-achievement of policy and legislative objectives.	<ul style="list-style-type: none"> • Development of protocol agreements and utilisation of Intergovernmental Relations (IGR) mechanisms to foster co-operation and accountability • Establishment of structures for engagement with appropriate departments and provinces to foster integrated planning and implementation
	As a result of inadequate capacity and fraud prevention strategies, there is a chance of fraud taking place in the social assistance grant system that would lead to loss of public funds and reputational damage.	<ul style="list-style-type: none"> • Operationalisation of the Inspectorate • Conduct an audit of SASSA's disability grant medical review processes • Prioritisation of Fraud Prevention Strategy and Plan, and Whistle Blowing Policy review at SASSA • Development and implementation of an electronic fraud detection system at SASSA • Anti-fraud messaging and promotion of SASSA services through virtual communication, electronic and print media
	<ul style="list-style-type: none"> • As a result of inadequate oversight to the agencies and entities (statutory bodies), there is a chance that governance and performance mandates assigned to them could be compromised leading to negative AGSA audit opinions. 	<ul style="list-style-type: none"> • Implement the Entity Oversight and Governance Framework. • Amend the South African Social Security Act. • Amendment of the NDA Act to redefine the mandate and scope. • Conclude the agency and entity shareholder agreements with the respective Executives in the agencies and entities. • Establish the appropriate oversight mechanisms that relate to the Central Drug Authority and the South African Council for Social Service Professionals. • Appoint a service provider to assist with the Entity Oversight function and augment the skills and capacity shortage in the Oversight unit if required. • Conduct a benchmark exercise on entity oversight role in comparable national departments
	<ul style="list-style-type: none"> • In spite of efforts in the development of an Electronic M&E system for the sector as well as many evaluation studies conducted largely to measure the implementation and effectiveness, the inability of DSD to invest in conducting impact evaluation studies robs the DSD of an opportunity to determine the impact of policies and programmes in reducing poverty, inequality and social ills. 	<ul style="list-style-type: none"> • Finalise the development and implement the Electronic M&E system for the sector • Develop a monitoring and evaluation plan towards the measurement of the strategic outcome indicators. • Establish partnerships with relevant institutions to effectively measure the outcomes and impacts • Allocate the relevant budget to support the Evaluation and Impact Study Plan from the Branch where possible • Presentation of the five-year plan with costing implications to EXCO and budget committee for further consideration from the Departmental budget • Conduct the impact evaluation studies

ANNUAL PERFORMANCE PLAN 2023/2024

OUTCOME	KEY RISK	RISK MITIGATION
	<ul style="list-style-type: none"> As a result of irregular reviews of treatment, aftercare and reintegration programmes, there is a chance that these programmes may not be effective, this may lead to wasteful expenditure. 	<ul style="list-style-type: none"> Subject programmes to a review to validate their design to produce the desired results Based on the review, redesign the programme if necessary and measure its adequacy and effectiveness
	<ul style="list-style-type: none"> Due to a lack of legislation for victim support, there is a chance that fragmentation of services to victims of gender-based violence amongst others may occur, which would lead to victims not being able to access services when required. 	<ul style="list-style-type: none"> Finalisation of the Victims Support Services Bill Capacitate provinces on the Intersectoral Policy on Sheltering and Policy on Psycho-social Support Services
	<ul style="list-style-type: none"> As a result of challenges with the implementation of the foster care programme, there is a chance that the Court Order date might not be complied with, which may lead to further court order extensions or punitive action taken against the Department. 	<ul style="list-style-type: none"> Implementation of the Social Assistance Amendment Act Monitor implementation of the web-based foster care tracking tool Monitor the national and provincial action plans that have been developed to manage the foster care programme
	<ul style="list-style-type: none"> As a result of the current socio-economic condition of the country, there is a chance of unrest in communities that may lead to DSD not being able to undertake its activities in those communities. 	<ul style="list-style-type: none"> Establish community structures or utilise existing community structures to foster an effective working relationship to deal with challenges in the communities Facilitate the required interventions in communities where applicable
	<ul style="list-style-type: none"> Due to the irregular reviews of the sustainable livelihoods programme, there is a chance that the sustainable livelihood programme may not be effective, which may lead to wasteful expenditure. 	<ul style="list-style-type: none"> Conduct a design and implementation evaluation of the sustainable livelihoods programme Review of the Sustainable Livelihood Toolkit. Based on the review, redesign the programme if necessary and measure the impact
	<ul style="list-style-type: none"> As a result of non-compliance with the Financial Action Task Force (FATF) recommendation 8 on NPOs there is a chance that NPO's involved in Terror Financing and Money Laundering could go undetected. 	<ul style="list-style-type: none"> Amend NPO Act FATF implementation plan (Strengthen capacity of the Chief Directorate: NPO to be able to deliver on recommendation 8) Mobilise DSD executive support Collaboration with South African NPO regulators/agencies, government departments and security cluster.

ANNUAL PERFORMANCE PLAN 2023/2024

OUTCOME	KEY RISK	RISK MITIGATION
2. Functional, Efficient and Integrated Sector	<ul style="list-style-type: none"> As a result of the concurrent function between DSD national and provinces, there is a chance of misalignment of national plans to provincial plans which may lead to different priorities being addressed. 	<ul style="list-style-type: none"> Conduct joint planning between national and provinces to ensure agreement on priorities; indicators for measurement and alignment of plans Development of a DSD Sector Plan and facilitate its approval Conduct quality assurance of provincial plans and alignment to national plans Monitor the implementation of the national and provincial plans, and report to applicable governance structures
	<ul style="list-style-type: none"> As a result of a lack of a fully functional DSD data warehouse with a management information system, there is a chance that DSD may not be able to plan effectively, this may lead to ineffective strategies being designed. 	<ul style="list-style-type: none"> Develop a DSD data warehouse Install business intelligence tools for analysis and reporting Conduct training on the use of the data warehouse
	<ul style="list-style-type: none"> As a result of a lack of a digital transformation strategy, there is a chance that the DSD services may not be efficiently optimised and remotely accessible to beneficiaries, which may lead to service delivery delays for the most vulnerable 	<ul style="list-style-type: none"> Develop a Digital Transformation Strategy that articulates the plan for business process reengineering and automation To develop a costing model To implement and monitor the plan in the outer years
	<ul style="list-style-type: none"> As a result of loadshedding and unstable electricity supply in the country there is a chance that critical ICT services may be interrupted, which may lead to challenges in business continuity for DSD services 	<ul style="list-style-type: none"> Installation of alternate power supply Development and management of the DSD Business Continuity Plan Implementation of the ICT Disaster Recovery Plan Maintaining ICT equipment that will assist during a disaster Conduct business recovery tests according to plans Identifying and maintaining disaster recovery sites
	<ul style="list-style-type: none"> As a result of the volume and nature of activities undertaken in the DSD Supply Chain Management (SCM) system, there is a chance of non-compliance to financial policies and prescripts which may lead to a negative Auditor-General of South Africa (AGSA) finding 	<ul style="list-style-type: none"> Review of business processes and internal controls in the SCM environment Automation of systems (RFQs, invoices tracking and assets management) Implementation of prior year AGSA findings Prioritise the filling of vacancies in the SCM environment Improve daily quality assurance processes in SCM Conduct Internal Audits in the SCM environment to reduce the risk of non-compliance
	<ul style="list-style-type: none"> As a result of the DSD Social Work Bursary Programme's inability to absorb social work graduates and the lack of a government-wide strategy and plan, there is a chance that social work graduates may remain unemployed which may lead to wasteful expenditure and a rise in social ills. 	<ul style="list-style-type: none"> Finalise engagements with relevant stakeholders on the draft strategy Submit the strategy to Cabinet Secure funding for the strategy Develop an implementation plan to support the strategy

ANNUAL PERFORMANCE PLAN 2023/2024

OUTCOME	KEY RISK	RISK MITIGATION
	<ul style="list-style-type: none"> As a result of silo systems within DSD and government, there is a lack of an integrated management information system on social protection beneficiaries across government (NISPIIS) which may result in an inability to track comprehensive interventions provided by government. 	<ul style="list-style-type: none"> Ringfence budget for the full development of a National Social Protection Information System (NSPIS) within the cluster Implement the convergence tool for integration of services throughout the cluster Define cluster cyber security strategy Standardise technology for the cluster
	<ul style="list-style-type: none"> As a result of poorly managed media communication, there is a chance of reputational damage to DSD and the sector/portfolio which may result in negative public perceptions of DSD. 	<ul style="list-style-type: none"> Develop and implement the DSD communication strategy Explore the option of procuring a media buying and marketing agency to communicate the services and work that DSD is doing in communities.
	<ul style="list-style-type: none"> As a result of climate change, there is a chance that there would be increased vulnerability experienced by the poor resulting in an increased demand for disaster relief services and financial support. 	<ul style="list-style-type: none"> Develop a DSD portfolio disaster management response strategy Establish DSD portfolio response teams in all districts and ensure appropriate training Develop a DSD portfolio disaster reporting system
	<ul style="list-style-type: none"> As a result of a dynamically evolving threat landscape comprised of determined cyber adversaries, there is a chance of cybersecurity attacks which may lead to loss of critical data and business disruption. 	<ul style="list-style-type: none"> Build cyber-resilience and secure systems by design through implementing third-party software and hardware in a zero-trust environment, prioritizing security throughout the design and implementation of a product lifecycle. Implement and prioritise patch management. Perform continuous monitoring, threat detection and response. Secure data at rest, in use, and in transit and implement recommendations of ISO 27001. Frequently review business continuity and disaster recover plans Review all existing security controls and improve where deficiencies are identified.

PART D: Technical Indicator Descriptions (TID's)

PROGRAMME 1: ADMINISTRATION

Indicator Title	Entity Governance and Oversight Framework implemented
Definition	This indicator tracks and monitors the implementation of the Entity Oversight Framework through quarterly interface meetings with entities, and the submission of quarterly performance reports by entities to the Minister.
Source of Data	<ul style="list-style-type: none"> Entity Governance and Oversight Framework Quarterly Entities Performance Report
Method of Calculation/Assessment	<ul style="list-style-type: none"> Qualitative
Means of Verification	<ul style="list-style-type: none"> Meeting schedules, attendance register, minutes and quarterly performance reports Memo to the Minister
Assumptions	Compliance and cooperation from entities
Disaggregation of Beneficiaries (where applicable)	N/A
Spatial Transformation (where applicable)	N/A
Calculation Type	Non-cumulative
Reporting Cycle	Quarterly
Desired Performance	Actual performance that is equal to the targeted performance is desirable
Indicator Responsibility	Office of the Director-General

Indicator Title	Stakeholder and Donor Management Strategy implemented
Definition	This indicator tracks and monitors the implementation of the Stakeholder and Donor Management Strategy with a specific focus on targeted stakeholder engagements (i.e., engagement with CEOs and leaders in business schools), a comprehensive stakeholder map for the national Department of Social Development, roundtable discussion reports and development of innovative stakeholder database.
Source of data	Stakeholder and Donor Management Strategy
Method of Calculation/Assessment	Qualitative
Means of Verification	<ul style="list-style-type: none"> Attendance register and minutes Stakeholder engagement reports Roundtable discussion reports Innovative stakeholder database
Assumptions	Availability and interest of stakeholders
Disaggregation of Beneficiaries (where applicable)	•N/A
Spatial Transformation (where applicable)	•N/A
Calculation Type	•Non-cumulative
Reporting Cycle	•Quarterly
Desired Performance	•Actual performance that is equal to the targeted performance is desirable
Indicator Responsibility	•Office of the Director-General

Indicator Title	Electronic M&E System for the Social Development Sector implemented
Definition	The indicator tracks and monitors the process to be undertaken for the full rollout of a functional Electronic M&E system to provincial Social Development Departments.

ANNUAL PERFORMANCE PLAN 2023/2024

Source of Data	Focus group discussion and interviews with provincial programme managers, district managers, service point managers, NPOs and M&E officials.
Method of Calculation/Assessment	Qualitative
Means of Verification	<ul style="list-style-type: none"> • Pilot report • M&E system manuals
Assumptions	<ul style="list-style-type: none"> • There is adequate funding for the project • Availability of provincial officials
Disaggregation of Beneficiaries (where applicable)	N/A
Spatial Transformation (where applicable)	District, rural, urban and ward level
Calculation Type	Non-cumulative
Reporting Cycle	Quarterly
Desired Performance	Performance that is higher than the targeted performance is desirable
Indicator Responsibility	DDG: Strategy and Organisational Transformation

Indicator Title	Social Development Index developed
Definition	This indicator tracks and monitors the development of a set of indices that are comparable to other countries on social developmental issues
Source of Data	Statistics SA
Method of Calculation/Assessment	Qualitative
Means of Verification	<ul style="list-style-type: none"> • Concept Document • Attendance registers and minutes • Costed implementation plan • Social Development Index
Assumptions	Stats SA releases data on time
Disaggregation of Beneficiaries (where applicable)	N/A
Spatial Transformation (where applicable)	N/A
Calculation Type	Non-cumulative
Reporting Cycle	Quarterly
Desired Performance	Actual performance that is equal to the targeted performance is desirable
Indicator Responsibility	DDG: Strategy and Organisational Transformation

Indicator Title	National Integrated Social Protection System implemented
Definition	<ul style="list-style-type: none"> • The indicator tracks and monitors the process towards the implementation of a National Integrated Social Protection System that will take place through the integration of other systems and phased in approach of a comprehensive NISPIS. • The implementation will include the automation and integration of internal systems from manual systems. The deposit of data into the convergence tool from participating department e.g DBE, DHA etc and integrate the systems. • Electronic consolidation and sharing of data, resources, and processes among different information application systems within Social Development and the cluster in order to enhance business efficiency.
Source of Data	Existing automated services within DSD and across the departments that are contributing towards social services
Method of Calculation/Assessment	Qualitative
Means of Verification	<ul style="list-style-type: none"> • System performance reports • Source code
Assumptions	<ul style="list-style-type: none"> • Services which integrate with DSD are automated from other participating departments • Technologies are standardised within the sector to ensure integration/ interfacing of services
Disaggregation of Beneficiaries (where applicable)	<ul style="list-style-type: none"> • N/A

Indicator Title	Government-Wide Strategy for the Employment of Social Service Professionals approved
Definition	<ul style="list-style-type: none"> • The indicator tracks and monitors the process towards the implementation of the Government Wide Strategy for the Employment of Social Service Professionals. • The process includes the development and approval of the strategy by Cabinet after extensive consultations with stakeholders. • The strategy will ensure appropriate capacitation of the social sector to enable government to fulfil its constitutional mandate of social protection. • Social Service Professionals refer to Social Workers, Child and Youth Care Workers and Community Development Practitioners.
Source of Data	• Stakeholder engagement with business, sector departments and National Treasury
Method of Calculation/Assessment	• Qualitative
Means of Verification	<ul style="list-style-type: none"> • Draft Government Wide Strategy for the Employment of Social Service Professionals • Submissions to clusters, Portfolio Committee and Cabinet
Assumptions	<ul style="list-style-type: none"> • Engage on issues of organisational structure for sector departments • Engage on issues post analysis on social work field with sector departments • Engage on expenditure analysis on prioritisation of posts with sector departments • Engage National Treasury for a special funding for employment of social work graduates • Establishment of an Inter-departmental Committee
Disaggregation of Beneficiaries (where applicable)	• N/A
Spatial Transformation (where applicable)	• N/A
Calculation Type	• Non-cumulative
Reporting Cycle	• Quarterly
Desired Performance	• Actual performance that is equal to the targeted performance is desirable
Indicator Responsibility	• DDG: Corporate Support Services

Indicator Title	SASSA Amendment Act approved
Definition	The indicator tracks and monitors the process of approval by Cabinet to table the South African Social Security Agency Amendment Bill in Parliament.
Source of Data	Government Gazette, correspondence and minutes of meetings
Method of Calculation/Assessment	Qualitative
Means of Verification	Submissions to Cabinet
Assumptions	Cabinet will approve the amendment Bill for tabling in Parliament
Disaggregation of Beneficiaries (where applicable)	N/A
Spatial Transformation (where applicable)	N/A
Calculation Type	Non-cumulative
Reporting Cycle	Quarterly
Desired Performance	Performance that is higher than targeted performance is desirable
Indicator Responsibility	DDG: Comprehensive Social Security

ANNUAL PERFORMANCE PLAN 2023/2024

Indicator Title	Victim Support Services Bill approved
Definition	The indicator tracks the process of securing approval of the Victim Support Services Bill by Cabinet.
Source of Data	<ul style="list-style-type: none"> Public comments that were received The various policies, legislations, strategic documents and guidelines such as the National Strategic Plan for Gender Based Violence and Femicide 2020-2030, TIP Act, Sexual Offences Act, Victims Charter, Domestic Violence Act, RSA Constitution and NPO Act
Method of Calculation/Assessment	<ul style="list-style-type: none"> Qualitative
Means of Verification	<ul style="list-style-type: none"> Approved Bill with presentations made in Cabinet sessions SEIAS certificate State Law Advisor certificate
Assumptions	<ul style="list-style-type: none"> FOSAD (SPCHD) will support the Bill for submission to Cabinet Cabinet will sit and accept or accommodate the presentation
Disaggregation of Beneficiaries (where applicable)	N/A
Spatial Transformation (where applicable)	N/A
Calculation Type	Non-cumulative
Reporting Cycle	Quarterly
Desired Performance	Actual performance that is higher than targeted performance is desirable
Indicator Responsibility	DDG: Welfare Service Policy Development and Implementation Support

Indicator Title	NDA Act reviewed
Definition	This refers to the review of the NDA Act, the focus in the current financial year will be to submit to Cabinet for approval to solicit for public comments.
Source of Data	<ul style="list-style-type: none"> NDA Act Research Consultations
Method of Calculation/Assessment	Qualitative
Means of Verification	<ul style="list-style-type: none"> Refined draft Bill Cabinet Memorandum
Assumptions	<ul style="list-style-type: none"> Timeous conclusion of correspondence and consultations process Stakeholders consensus
Disaggregation of Beneficiaries (where applicable)	N/A
Spatial Transformation (where applicable)	N/A

Desired Performance	Actual performance that is higher than targeted performance is desirable
Indicator Responsibility	DDG: Welfare Service Policy Development and Implementation Support

Indicator Title	% of OVCY (who know their HIV status) in G2G Districts provided with core package of services
Definition	<ul style="list-style-type: none"> G2G Districts refers to districts where Government-to-Government project is being implemented. G2G is a project funded by USAID/PEPFAR OVCY refers to Orphans, Vulnerable Children, and Youth. Orphans, vulnerable children and youth includes children and youth aged less than 18 years who are exposed to risk factors that may impact negatively on their development, care and protection, and/or whose access to child care and protection services is limited and/or lost both or one parent. Individuals aged over 18 -24 years are also included as "OVCY" only if they are in secondary education. The core package of services focuses on seven (7) interrelated service areas that contains the evidence-based interventions in each domain to improve the life of the child by capacitating and mobilising the protective resources available to meet the child's needs. The service areas support the holistic development of the child and consists psychological support, educational support, health promotion, HIV and AIDS services and support, Childcare and protection, economic strengthening, and food and nutrition promotion. OVCY who have received at least one (1) core package service during the reporting period will be counted. Knowing their HIV Status refers to knowing their Negative and Positive HIV status.
Source of Data	<ul style="list-style-type: none"> Primary data sources include program registers, and OVC program monthly activity form and HIV Status Form by district Secondary data sources will be the annual PEPFAR report generated from CBIMS

ANNUAL PERFORMANCE PLAN 2023/2024

Method of Calculation/Assessment	<ul style="list-style-type: none"> Each individual gets counted only once in the reporting period: Numerator: Number of OVCY who received at least one (1) core package service during the reporting period and know their HIV status. Denominator : Number of OVCY who have received at least one (1) core package service during the reporting period
Means of Verification	Annual PEPFAR report generated from CBIMS
Assumptions	The districts will be providing services and meeting the periodic targets set.
Disaggregation of Beneficiaries (where applicable)	<ul style="list-style-type: none"> F/M, <1 F/M, 1-4 ,F/M, 5-9 F/M, 10-14 F/M, 15-17 F/M, 18-20 F/M District Sub-district Persons with disability
Spatial Transformation (where applicable)	N/A
Calculation Type	Non-Cumulative
Reporting Cycle	Annual
Desired Performance	Actual performance that is higher than targeted performance is desirable
Indicator Responsibility	DDG: Welfare Service Policy Development and Implementation Support

Indicator Title	% of OVCY (in G2G districts) with HIV positive results supported to adhere to treatment
Definition	<ul style="list-style-type: none"> The indicator tracks the number of OVCY with positive HIV positive results who have been supported to adhere to (ART) treatment . G2G Districts refers to districts where Government-to-Government project is being implemented. G2G is a project funded by USAID/ PEPFAR. OVCY refers to Orphans, Vulnerable Children, and Youth. Orphans, vulnerable children and youth includes children and youth aged less than 18 years who are exposed to risk factors that may impact negatively on their development, care and protection, and/or whose access to childcare and protection services is limited and/or lost both or one parent. Individuals aged over 18-24 years are also included as OVCY only if they are in secondary education. Treatment refers to antiretroviral treatment. Support refers to attending the support groups, provided with ART adherence assessment counselling/treat literacy
Source of Data	<ul style="list-style-type: none"> Primary data sources include support groups registers, OVC program monthly activity form and HIV Status Form by district Secondary data sources will be the annual PEPFAR report that gets generated from CBIMS (Community Based Intervention Monitoring System)
Method of Calculation/Assessment	<p>Each individual counted only once in the reporting period.</p> <ul style="list-style-type: none"> Numerator : Number of OVCY with positive HIV status who have attended adherence support group sessions and/or provided with adherence counselling Denominator : Number of OVCY who are on ART during the reporting period
Means of Verification	Annual PEPFAR report generated from CBIMS
Assumptions	The OVCY will be taking their pills as prescribed and motivated to continue adhering to treatment.
Disaggregation of Beneficiaries (where applicable)	<ul style="list-style-type: none"> F/M, <1 F/M, 1-4 ,F/M, 5-9 F/M, 10-14 F/M, 15-17 F/M, 18-20 F/M, 20-24 F/M District Sub-district Persons with disability

Indicator Title	National Food and Nutrition Security Plan implemented
Definition	<ul style="list-style-type: none"> This indicator tracks and monitors the implementation of the National Food and Nutrition Security Plan for South Africa (2018-2023). DSD responds to the strategic objective 7 (Targeted social protection) by developing an annual plan and submits it to the DPME and Cabinet. The plan is an integrated and comprehensive inter-sectoral plan for South Africa that reflects a common vision across government departments and entails a unified set of national goals and objectives, indicators and targets for monitoring progress. The plan will also enable the country to address problems such as hunger, malnutrition and micronutrient deficiencies that affect physical growth and cognitive development, especially among children, as directed by the National Development Plan 2030.
Source of Data	<ul style="list-style-type: none"> Reports from sector departments The National Food and Nutrition Security Plan for South Africa (2018-2023)
Method of Calculation/Assessment	Qualitative
Means of Verification	<ul style="list-style-type: none"> Technical Working Group quarterly reports SASSA SRD report Consultation reports Provincial Food and Security Plans Implementation Report
Assumptions	DSD will continue to lead implementation of Strategic Objective 3 of the NFNSP
Disaggregation of Beneficiaries (where applicable)	<ul style="list-style-type: none"> The plan targets the poor, vulnerable and marginalised with emphasis on the priority districts. This includes unemployed women, youth and men with no income and food. People living with disabilities are also included.
Spatial Transformation (where applicable)	The plan is implemented targeting the most poor and deprived areas/priority districts
Calculation Type	Non-cumulative
Reporting Cycle	Quarterly
Desired Performance	Actual performance that is equal to the targeted performance is desirable

ANNEXURE D: DISTRICT DEVELOPMENT MODEL

DSD has a number of commitments relating to the implementation of the District Development Model. These include among others:

- Capacitating fifteen (15) Gender-Based Violence and Femicide hotspot districts on the provision of Psycho-social Services Policy and Intersectoral Policy on the Sheltering Services, to enable the districts to respond to issues of gender-based violence and femicide.
- Capacity building of eleven (11) districts on the Community Mobilisation and Empowerment Framework towards the implementation of DDM
- Coordinating DSD (national and provincial) participation in the Districts Development Model (DDM) in eighteen (18) districts
- Producing monitoring reports on the implementation of the framework on integration of Population Policy in the District Development Model
- Training of sixty (60) municipalities on integrating migration issues into the IDP
- Provide seventy thousand (70 000) Orphans and Vulnerable Children (OVCY) in Government to Government (G2G) districts with core package of services
- Provide core package of services to 70% OVCY who know their HIV status in G2G districts
- Support 95% of OVCY who know their HIV positive status in G2G district to adhere to treatment
